# COMMUNITY LEGISLATORS IN CONFERENCE

## FIRE IN TIA JUANA TO-DAY CAUSED LOSS OF ABOUT \$1,000,000

Flames Started in Kitchen of  
Vernon Club and Spread to  
Nearby Structures

Water Supply Failed; Inhabitants  
Stood Helplessly by  
and Looked on

San Diego, Cal., Sept. 22.—Flames which started in the Vernon Club Tia Juana early this morning swept through an entire block that included some of the best known resorts in the border city, causing a loss business men of the town estimated would total nearly \$1,000,000.

Reports from the Mexican town were to the effect that the fire broke out in the kitchen attached to the Vernon Club shortly after 4 o'clock this morning. Fanned by a moderate wind, the blaze quickly spread to adjoining structures and within a few minutes one of the worst fires in the history of Tia Juana was under way.

**WATER SUPPLY FAILED**  
The fire department, consisting of one motor truck with hose and chemical tanks, was soon on the scene, but within a few minutes after the pumps had been started the water supply gave out and there was then nothing for the inhabitants of the town to do but stand helplessly by and watch the spread of the flames.

Shortly before 5 o'clock the wind died out completely and it is to that fact that the saving of the town is attributed.

No casualties or injuries of any kind as a result of the fire have been reported.

**SMALL INSURANCE**  
Two score buildings, including fifteen saloons, were destroyed.

Less than \$200,000 insurance was carried.

## NEW BRITISH MOSUL REQUEST Laid BEFORE COUNCIL OF LEAGUE

Body is Asked to Consider  
Deportation of Many Christians  
by the Turks

Suggested League Representatives  
be Sent to Mosul  
Area to Investigate

Geneva, Sept. 22.—Great Britain made a new move to-day in the Mosul controversy in a note addressed to the Council of the League of Nations. The British delegation asked that the Council meet as soon as possible to consider the Turkish alleged deportation of Christians from the Mosul area and to send League representatives to the scene to investigate the charges made by the British and the counter-charges put forward by Turkish observers.

The Turks have denied deporting Christians from the Mosul area and accuse the British of occupying Mosul temporarily held by Turkish troops.

**TREATY VIOLATION**  
The British in their statement to the Council stated that the Government felt strongly that, quite apart from the humanitarian considerations involved in the forcible deportation of unhappy people into a cold, inhospitable region, Turkey's latest action constituted a distinct violation of the territorial status quo and the Treaty of Lausanne.

The delegates to the Assembly again went on record to-day as opposed to any changes at present in the status of the Permanent Council of International Justice. Having introduced Uruguay to withdraw its proposal for a revision because such action might block possible adherence to the court by the United States, the delegates at to-day's session adopted a resolution postponing the Danish project to establish a conciliation commission as a branch of the court.

## Chicagoan Denies He Was Kidnapped

Chicago, Sept. 22.—"Mistaken identity" was the explanation of Henry Belford, known as Hickory Slim, racketeer gambler, to-day of his kidnapping last night.

Belford telephoned to the manager of the hotel from where he and his wife live.

"It was a case of mistaken identity," he explained. "They stole my car, but did not hurt me."

## U.S. MOROCCAN AIRMEN

Paris, Sept. 22.—The status of the United States aviators fighting in Morocco is entirely an affair between the Sultan of Morocco and the individual Americans themselves. This statement was made at the French Foreign Office to-day on information that the State Department at Washington had ruled that the United States aviators were serving in Morocco in violation of the laws of the United States.

## WOLF HUNT IN OLD ONTARIO

St. Thomas, Ont., Sept. 22.—Farmers' families of the Port Talbot-Port Stanley district are in a state of alarm following an unsuccessful all-day hunt in which forty men took part for a lone wolf which has been killing sheep and other livestock.

## HEAD OF IRISH AIR FORCE WAS KILLED TO-DAY

Dublin, Sept. 22.—Thomas Maloney, commandant of the Irish Free State air force, was killed in a flying accident at Curragh to-day. His machine crashed when he was flying low during an aviation tournament.

## LIBERALS LINE UP BEHIND BOLD WESTERN POLICY AS G. G. McGEER IS NOMINATED

British Columbia Liberals launched a strong campaign for Western development last night at the nominating convention which unanimously chose G. G. McGeer, K.C., as Liberal candidate in Vancouver Centre. Mr. McGeer's fighting speech, roundly assailing his Conservative opponent, Hon. H. H. Stevens as the friend of the East, clearly marked out the election on the mainland as a struggle between the Eastern policy of the Conservative Party and the broader national policy of the Liberal Government.

Last night's big rally in Vancouver started the B.C. election campaign in real earnest. From now until October 23 there will be no let-up in the fight. To-morrow night's banquet to Hon. J. H. King, Federal Minister of Public Works, in the Chamber of Commerce auditorium here will be the next important event of the campaign. Preparations for this affair are complete now and the sale of tickets so far indicates that the British Columbia Cabinet Ministers will be given a rousing reception by Victoria Liberals.

Major Gus Lyons, M.P.P., campaign manager for Hon. S. F. Timmins in Victoria, is calling the executive of the Conservative Association to meet next Wednesday to plan a strong fight for the return of the Conservative candidate. Conservative of Nanaimo riding also are becoming active with Capt. W. J. Cox of Esquimalt acting as campaign manager for C. H. Dickie, Conservative of the riding. C. F. Davis, M.P.P., is Mr. Dickie's business agent.

In his speech in Vancouver last night Mr. McGeer laid down a bold program for the Liberal Government. He said, "that the manufacturing, farming, mining, and commercial interests of the Canadian banking system so as to free the West from the grip of Eastern financiers were three leading planks of his platform. The policy he submitted advocated removal of all discriminations in transportation costs by railways in Western Canada. To the end," he said, "that the manufacturing, farming, mining, and commercial interests of the Canadian banking system shall have the same service at the same rate."

## CHINESE TREATIES DEBATED IN GENEVA

Declaration Revision in  
Consonance With League  
Covenant is Expected

Geneva, Sept. 22.—China is encountering obstacles in her plan to put the League of Nations Assembly on record as favoring a satisfactory outcome of the forthcoming conference in China for the revision of Chinese treaties.

An agreement seemed in sight on the draft of the resolution to be adopted by the Assembly, when suddenly from several states interested in preventing reconsideration of the League covenant.

## COMPROMISE CLAUSE

This article declares the Assembly may advise reconsideration of treaties which have become inapplicable, and the Chinese delegation desired the projected resolution to emphasize that the proposed revision of China's treaties with the powers responded to the spirit of the article.

Following the objects expressed in private conversations with the delegates, the Chinese, rather than have the resolution defeated, will presumably accept a compromise clause, saying revision of the Chinese conventions is in consonance with the spirit of the covenant.

## Chinese Wireless Plans Discussed

Tokyo, Sept. 22.—Tsuneko Matsudaira, Japanese Ambassador to the United States, will soon be instructed to begin conversations with Secretary of State Kellogg regarding the Chinese wireless situation, with the expectation that a United States-Japanese compromise will be reached satisfactory to all parties. It is said that neither the Japanese nor the United States Government is favorable to the Chinese proposal to float a loan to take over all wireless interests in China, but is expected to counter-propose will be worked out by Tokyo and Washington.

## \$100,000 LIBEL ACTION FAILS

Regina, Sept. 22.—The \$100,000 libel action of Aaron Sapir, internationally known co-operative marketing expert, against three Saskatchewan newspapers—The Star and The Phoenix of Saskatoon and The Leader of Regina—was withdrawn from the jury by the presiding judge to-day.

The argument of counsel for the defendants that the comment on the co-operative marketing methods as published in the newspapers and upon which the action was based was fair comment was upheld.

Mr. Justice Macdonald ruled that it was "fair comment" upon a matter of extreme public importance, and the plaintiff had failed to prove malice.

## GREAT TOURIST TRAVEL LEADS TO INVESTMENT

E. W. Beatty Says C.P.R. Will  
Build Numerous Bungalows  
at Glacier, B.C.

Says He Has Found Steady  
Business Improvement  
Throughout Canada

Vancouver, Sept. 22.—Tourist traffic has been so great during the past year that the Canadian Pacific Railway will provide additional facilities at its mountain resorts for the trade, according to an announcement made here by E. W. Beatty, president of the railway, during an interview to-day. Tourists who desire to get away from the pretentious places, such as Banff and Lake Louise, to the simpler life in camps and bungalows will find new accommodation during the 1926 season with the development of Glacier, where numerous bungalows and community houses will be erected.

Improved business throughout Canada, declared by Mr. Beatty, who declared he had complete faith in the future, emphasizing his belief that the one and only salvation of the Dominion is to remain an undivided whole with the present Empire ties.

In discussing the Peace River transportation situation, Mr. Beatty reiterated his statement that connections between Alberta and the coast would be more feasible by the Pine or Peace passes. He does not favor the Obed or Bruie cutoff.

## TO VISIT VICTORIA

Mr. Beatty will leave for Victoria to-morrow. He will go from there to Nanaimo on Friday and thence back to Vancouver.

Vancouver, Sept. 22.—Greatly gratified with present business and crop conditions in the prairie provinces, E. W. Beatty, president of the Canadian Pacific Railway, following a tour from Montreal, is a visitor in Vancouver to-day. He is making his annual trip of inspection of the company's lines.

The Canadian Pacific president had no comment to make on the immigration statement made by Hon. G. N. Gordon, Minister of Immigration, in Toronto last night. It is pointed out, however, that Mr. Beatty's reference to a "new agreement" in a recent speech was in reference to an understanding on the elimination of a "good deal of red tape," as mentioned by Mr. Gordon.

## SENT TO DISCUSS REFUNDING OF FRENCH DEBT WITH U.S. REPRESENTATIVES

Now on the Atlantic, on their way to the United States to represent France in the formal negotiations which are expected to lead to terms of settlement of the big French debt to the Washington Government, are the three men whose pictures appear above. From left to right they are Fernand Chapal, Maurice Bokanowski and Joseph Caillaux, Minister of Finance.

## GOVERNMENT STANDS FIRM FOR WESTERN RATE JUSTICE. KING TELLS MARITIME PROVINCES

St. John, N.B., Sept. 22.—Premier Mackenzie King spoke before a Maritime audience here last night in defence of grain rate equalization granted to Western Canada, which was recently attacked by Rt. Arthur Meighen, Conservative leader, as "utterly indefensible." Mr. King warned the Maritime provinces through his St. John speech that the Government had no intention of abandoning its rate policy, declared that only simple justice had been granted to the West, and indicated that he would not seek to gain support in the Maritimes by abandoning other parts of Canada.

What the Government had done in the matter of railway rates, said the Prime Minister, was to instruct the Railway Commission to proceed with the work of equalization, making the only limitation that Crow's Nest Pass rates should apply on eastbound grain and flour. He sketched the history of the Crow's Nest Pass Agreement, observing that it stipulated that the rates it stipulated were fixed by statute in 1897, and not by the present Government, then referring to the situation of last season, he continued: "We said to our Western friends: Conditions have changed. We think you ought to forego part of the Crow's Nest Agreement. We will leave the rates on grain and flour. In regard to the other articles in the Crow's Nest Agreement—agricultural implements and the like—you have got to do with whatever terms the Railway Commission will give you. That was the position we took."

## B.C. STUDENTS ARE IN NEW HOME

Vancouver, Sept. 22.—Students of the University of British Columbia held their first exercises in the new building at Point Grey this morning, when Dr. L. S. Klinck, president, welcomed the old and new students to the eleventh session.

## THREE ADVENTURERS IN LIFEBOAT TEST

Cornish Mariners Hope to  
Voyage 38,000 Miles in  
Forty-foot Craft

London, Sept. 22.—In order to test a theory concerning supplies which should be compulsorily carried by ships' boats in case of disaster, and how far wireless equipment can aid seafarers who are compelled to take to their boats, three Cornish mariners and a wireless operator have started on a 38,000-mile voyage. They left Newlyn, Cornwall, in a converted lifeboat, 40x10 feet, supplied with power by a 15-horsepower internal combustion engine. The boat carries five tons of foodstuffs.

## Fishing Craft Sank; Those Aboard Saved

Prince Rupert, Sept. 22.—Colliding with another United States fishing vessel, the Republic, the Sentinel sprang a leak and sank off Casey Cove, Digby Island, near here, early this morning. The Sentinel's crew was rescued without casualty and salvage work is already proceeding. It is expected the boat will be raised without serious difficulty.

## SON BORN TO MCGOVERNS

Great Barrington, Mass., Sept. 22.—A son was born here last night to Terry and Mrs. McGovern. Mrs. McGovern was Mildred Harris, motion picture star, and formerly the wife of Charlie Chaplin.

## City of London Is Prize In British Army Sham Battle

Somewhere in Wiltshire, England, Sept. 22.—A mimic war on the Wiltshire Downs, with London as the theoretical prize, began at dawn to-day when the British army manœuvres opened with a surprise attack by the Blue Army, London's defenders, under Lieut.-General Sir Philip Chetwode. The Red Army, attacking under Lieut.-General Sir Alexander Godley, was not caught napping, however, and the Blue advance was quickly checked by the "destruction" of a bridge and the rushing of Red troops to the front.

## NO SIDEWALK, SO DAMAGES CLAIMED

Vancouver, Sept. 22.—A unique claim for damages was presented to the city council of Vancouver. Owing to the non-completion of a sidewalk in the eastern end of the city, two girls claimed damages of \$20 for two pairs of shoes worn out on the rough walk. The claim was "filed for reference."

## WOMAN AND CHILD BURNED TO DEATH

Victoriaville, Que., September 22.—Mrs. Euclide Marion and one of her children, two years of age, were burned to death early to-day when the residence of E. St. Laurent here was destroyed by fire caused by the explosion of an oil stove. Four other children were able to get out of the building.

## Hunter on Prairies Lost His Life

Moore Jaw, Sept. 22.—A few minutes after he had stated that he was starting out to shoot duck, A. D. Gallagher, former M.P.P., was found dead near his brother's farm at Tuxford, with a bullet wound in the brain. A coroner decided death was accidental.

## DEPORTATION RIGHT IS CHIEF ISSUE IN AUSTRALIAN ELECTION

London, Sept. 22.—The coming Australian general election is already arousing considerable interest here because of its dramatic possibilities.

The London Daily News expresses the opinion the election will be fought out on the specific issue of the Government's right to deport persons whom it thinks are undesirable because of their active connections with labor troubles, and says the results of the election may have decisive importance in the history of the Commonwealth. Considering the intense jealousy of most Australians of even the mildest threat to the liberty of the individual, The News says Premier Bruce "acted rather boldly in challenging public opinion, but it is not easy to see what else he could have done under the circumstances."

## NO TROUBLES WANTED

A victory for the Labor Party, which asserts the right to strike in defiance of perfectly definite agreements entered into by the trades unions concerned, would be interpreted everywhere as a triumph for the Communists," says The News, "and the fact that it would have been brought about by the votes of thousands who are really Communists would alter neither the interpretation nor the evil effects upon the world, which needs no addition to its troubles and perplexities."

## YORK FIRM COURSE

The dissolution of the Australian Federal Parliament and the coming general election are results of the opposition stirred up by the Government's passing of the deportation measure which was aimed at leaders in the seamen's strike and which gives the Government power to deport any person not of Australian birth who is actively concerned in stirring up labor troubles. Premier Bruce showed defiance of the labor leaders when the measure was passed, and a general election would be called.

## RESIGNATION OF BISHOP TURNED BACK

Anglican Diocese of Ontario  
Leaders Uncertain Now as  
to Course

Ottawa, Sept. 22.—The House of Bishops of the Church of England in Canada, at a meeting to-day to consider the resignation of the Bishop of Ontario, Right Rev. E. J. Bidwell, took the following resolution unanimously:

"That having given careful consideration to the whole question, this House declines that the resignation of the Bishop of Ontario be not accepted."

## EXECUTIVE TO MEET

Kingston, Ont., Sept. 22.—Members of the Synod executive of the Anglican Diocese of Ontario will meet to-day to decide what effect the refusal of the House of Bishops to accept the resignation of Bishop Bidwell will have. The executive is to meet on October 6, when the matter will be taken under consideration. It is understood here the House of Bishops took the view that it would be quite in order for Bishop Bidwell to retain his post as head of this diocese, as it claims to have precedent in other bishops retaining office whose wives were Roman Catholics.

## MUNICIPAL CONVENTION COMMENCES IMPORTANT SESSIONS AT CITY HALL

Mayor Pendray Welcomes Delegates to Twenty-second Convention of Union of B.C. Municipalities; Wide Representation of Communities.

The twenty-second annual convention of the Union of British Columbia Municipalities opened this morning at the City Hall with an address of welcome by Mayor Carl Pendray.

The convention was called to order by President Alex. Lockley, ex-Reeve of Esquimalt, at 10 o'clock in the Council Chamber, Mayor Pendray being introduced as "a business man who has been highly successful in directing the city of Victoria on her road to prosperity; one who has accepted public office as a duty to his fellow men, at considerable personal sacrifice."

## CHINA CONFERENCE

Washington, Sept. 22.—Formal acceptance of December 18 as the date for the meeting of the extra-territorial inquiry committee in Peking has been received at the State Department from several additional powers, including Japan.

## SUGAR PRICE FALLING IN U.S.

New York, Sept. 22.—Raw sugar prices dropped to-day to the lowest level since May, 1921, on a sale of 10,000 bags of spot Cuban at 4.12 cents a pound, duty paid.

## BODY OF WOMAN WAS FOUND IN FURNACE

New York Lumber Foreman  
in Custody; Planned Suicide,  
But Failed

New York, Sept. 22.—Police to-day discovered the body of Mrs. Sophie Polecki, a young woman of the East Side, in the furnace of a lumber yard on Lewis Street, George Symuk, married man and foreman of the lumber yard, was arrested. The police believe the woman was placed in the furnace while still alive and burned to death.

## Suspected Woman Had Poison For Him and Beat Her on the Head

London, Sept. 22.—The entire contents of the residence of the late Viscount Leverhulme at Hampstead have been sold to the Anderson Gallery of New York City for disposal there early in 1926.

## RURAL MAIL DELIVERY MONUMENT PLANNED

Hope, Ind., Sept. 22.—The Indiana Rural Letter Carriers' Association has planned to erect a monument to mark the site of the oldest rural free mail delivery in the United States, to which was started twenty-five years ago.

Two experimental routes were started a year before the Hope project, but they since have been abandoned, while the route out of here has been continued without interruption.

Not a record is available in the Hope post office that establishes the exact date of the starting of the route. All postmasters who knew the story are dead and Releigh Norman, the first carrier, was killed in an automobile accident a year ago.

## CLODBURST BRINGS MONEY TO FARMER

Tonopah, Nev., Sept. 22.—A recent clodburst on the land of L. L. Loony of Rochester, Nevada, washed away a portion of the ground around his house. When the storm was spent, a vein of mineral was exposed.

He started to dig. At a depth of twenty feet he opened up a vein of ore assaying \$80 to the ton. He was soon on his way to the smelter with the first carload.

## SEATTLE WOMEN OBJECT TO ORDERS OF TRAFFIC POLICE

Seattle, Sept. 22.—A test in court of a new traffic regulation in Seattle loomed to-day. Yesterday two women were arrested. One doubled up her fist and hit Patrolman Haskler on the jaw when ordered to retrace her steps after crossing a street against a signal. The other was put in a cell when she refused to post \$2 bail. After thirty-five minutes she was released. Her husband declared he would take the case to the Supreme Court.

## WHILE MOTHER SHOPS

Vancouver, Sept. 22.—Leaving her baby outside while she went into a shop, Mrs. W. Cosman came out a few minutes later to find her child had been transferred into a dilapidated old baby carriage from its own new vehicle, which had disappeared.

## MAN WENT INSANE

Vancouver, Sept. 22.—After mailing a letter which he declared was for "King George," Michael Lomashoff, a Bulgarian, told the postmaster at Sillivaster, B.C., he was going to kill himself because his "life was threatened." He is now in the Bonifant asylum. A fellow countryman read the letter, but did not disclose its contents.

given will not be published, but is intended to be filed in the consular office in London, and also in Washington, for the guidance of United States firms having or contemplating business relations abroad.

The questions, among others, include: to what extent the firm insures its plant and stock; what it buys and where; how many branch houses and travelers it has; what is the annual volume of business done; and how many persons are employed.

The Mercantile Guardian is quoted by The Daily Mail as saying that such "other inquisitive impertinence" never had been equalled, even by the German spies' commercial agencies before the war.

**HELD FOR DEPORTATION**

Los Angeles, Sept. 22.—Leonard Fenwick Oliver, a British subject and prominent character actor in the studios of Hollywood, was held today without bail in the county jail awaiting deportation on a charge that he had made false statements in his passport when he entered the United States. Oliver came here from Bombay, India. He will be given a hearing in the near future before a United States commissioner.

A virtuous character was never formed under the prevailing influence of defection and discouragement.

**ASKED TO SUPPORT PLANS FOR HOSPITALS FINANCE**

**J. J. Banfield of Vancouver Asks Convention to Favor Erection of New Authority**

J. J. Banfield of Vancouver at today's opening session at the City Hall of the Union of B.C. Municipalities Convention was roundly applauded for the conclusion of an appeal for support for co-operation between the union and the Hospitals Association to solve hospital finance questions.

Mr. Banfield laid before the union, for consideration and support, the report to the Hospitals Convention at Nanaimo, made by the committee of municipalities. The following are the crucial points of this report:

The plan suggested is the appointment of a board of committee composed of three representatives, one from the Provincial Government, one from the Union of B.C. Municipalities and one from the B.C. Hospitals Association. This board would be properly constituted and given full powers to assess and collect from the organized and unorganized districts in the Province a sum of 85 cents per hospital day's treatment, which sum in turn would be paid to the hospitals on this basis for the number of days treatment which may be charged against each municipality. The rate of eighty-five cents per day is fixed only for one year. The figures are taken from the Provincial Government returns for the year 1923, afterwards the committee will fix the rate on a basis of costs.

On 1923 figures the following estimate is given:  
Total expense of all hospitals in B.C. in 1923, \$2,435,768.00  
Less revenue received from paying patients, donations and miscellaneous sources ..... 1,368,519.00  
Less Government grants on per capita basis ..... \$1,067,349.00  
Total sum to be assessed against municipalities and Provincial Government ..... \$ 560,308.00

The total day treatment for the Province ..... 758,380  
The advantages of a system of this nature are many, chiefly:  
1. The elimination of friction between the municipalities and the hospitals.  
2. A more equitable basis of payment by the municipalities.

3. The placing of hospitals of the Province on a proper financial basis.

**RESOLUTION OFFERED**

The North Vancouver Council has submitted to the union for consideration, hospital act amendment resolutions as follows:  
1. That an amendment to the act, be amended by adding to clause (1) as sub-section "B" the following: "Where any indigent person applies for admission or admission is applied for on his or her behalf to any hospital receiving aid under this act, it shall be the duty of such hospital to ascertain forthwith and prior to such admission, except in the case of emergency or special agreement between the municipalities concerned, that the said patient is entitled to the hospital named by resolution or by-law, if any, of the council of the municipality responsible for the cost and treatment and maintenance of such person, as the hospital in which the indigent patients of the said said mentioned municipality shall receive treatment, and except in the case of emergency or special agreement as aforesaid, the hospital so named by a resolution or by-law, if any, shall, unless it has in writing under the hands of its mayor or secretary, signified its inability for any cause to admit the person who applies for admission, or for whom admission is applied for as aforesaid, be the only one entitled to recover charges for such treatment and maintenance."

2. That section 54 of the municipalities act be amended by adding thereto as sub-section 28a the following: "For entering into agreements with hospitals as to treatment and maintenance of indigent patients, residents of the municipality, within the meaning of the Hospital Act, and for nominating, subject to the approval of the Inspector of Municipalities, the hospital or hospitals at which such persons shall receive treatment and maintenance."

**MUNICIPAL CONVENTION COMMENCES IMPORTANT SESSIONS AT CITY HALL**

(Continued from page 1)  
"I am not going to tell you anything about our wonderful climate or beautiful city. You are going to have an opportunity, as guests of the city, of touring around this vicinity and seeing some of the beauty spots of Victoria, and I know you are going to enjoy your stay in the Capital City. I would like to tell you that the Victoria has at last passed the period of depression, and we look forward to a real period of prosperity. Our City Council has adopted a policy of 'Pay as we go.' Last year we had a cash surplus of over \$140,000 in the bank. Victoria might well be called a ninety-five per cent completed city. No more capital expenditure is in sight for many years to come, our streets are almost all paved and in good shape, and what extension to sewers and waterworks or electric light plant that are required can easily be taken care of out of general revenue."

And in this inquiry, the Premier urged necessity of keeping the municipalities upon a sound financial basis, pointing out that 1,550 new industries have been located in the Province in the past year, while Vancouver, he had been informed, is now the third manufacturing city in Canada.

In ten years this Province has jumped from a payroll of \$50,000,000 to over \$180,000,000. It has every advantage that could be asked for and is destined to be the best Province in the Dominion."

**CHURCH SERVICES FOR DEAF CITIZENS**

Seattle Minister Will Pay Regular Visits to Victoria  
The Victoria and district deaf citizens had their church service conducted by the Rev. G. W. Gaertner, Seattle minister to the deaf, Sunday afternoon at the Grace English Lutheran Church, kindly given by the Rev. Jansen to their use of the church.

After the service it was decided to meet at the same church third week of each month. The church branch has been added to the number of church branches, which Rev. Gaertner is at present circulating Seattle, Tacoma, Anacortes, Bellingham and Portland are included. Anyone interested in above mentioned is cordially welcome and may get in touch with G. P. Riley, elected treasurer for the local branch, 1751 Davie Street, or B. F. Wallace, 47 Boyd Street.

**LIBERALS LINE UP BEHIND BOLD WESTERN POLICY AS McGEER IS NOMINATED**

(Continued from page 1)  
same cost that is extended in other parts of the Dominion."  
**P.G.E. EXTENSION**  
In advocating that the Pacific Great Eastern Railway from North Vancouver to the Peace River country be taken over and completed by the Canadian National system, Mr. McGeer said:

"This is a railway that will pay the moment it is completed. It will open up a country that is an Empire within itself. The centre of the Peace River country via this route is closer to Vancouver than Saskatoon is to Port William. Premier Oliver's prediction that 150,000,000 bushels of wheat per annum will be brought over this route is a statement of the future, but it is not too far in the future at that."

Another plank in the platform he outlined was the completion of the C.N.R. terminal between Vancouver and Port Mann, and a C.N.R. hotel for Vancouver. He urged appointment of a representative of Greater Vancouver on the C.N.R. Board of Directors and the reorganization of the Board of Railway Commissioners providing for a continuous sitting in Western Canada, and a British Columbia representative on this board.

Mr. McGeer advocated a change in the banking laws and in this connection he criticized the failure of the Home Bank and promised if elected to work in the interests of the depositors.

**ATTACKS BANKS**  
The banking system of Canada, he declared, was controlled in the East to the detriment of the West. "The banks," he said, "are ready money to the sugar trust in Cuba, to the stock brokers on Wall Street, to Mexico and South America, but woe betide the man in Western Canada who wants a line of credit for development here."

Mr. McGeer also urged establishment of an iron and steel industry in British Columbia.

As for the Vancouver Harbor Board, he urged that the shipping interests have direct representation on the board. He drew attention to the importance of the harbor to the city and to all of Western Canada. It was of national importance.

**HARBOR BOARD NEEDS**  
"It seems to me," he said, "the time has come when the Harbor Board should be completely reorganized upon a basis that will establish it not only in the confidence of the public here but in the confidence of the shipping men upon whose foresight and ability we must depend for the development of our mercantile marine activities."

Mr. McGeer roundly criticized Mr. Stevens and declared he was a ready aide to Hon. Arthur Meighen, conservative leader, who "bitter and resentful is slandering Canada."

**STEVENS ATTACKED**  
"Mr. Stevens," said Mr. McGeer, "played little or no part in the creation of the elevator in Vancouver or the other elevators in Calgary, Moose Jaw and Saskatoon that were supposed to function as the elevators on the western route. The elevator was built largely upon the recommendations of Mackenzie and Mann, who had promised substantial rate reductions on their lines from the prairies to the Pacific Coast. In 1914 this road was completed. It was later declared to be a work for the general advantage of Canada. Shortly after that it was taken over by the Dominion Government. The rate reductions did not come and although the elevator was completed it never moved a pound of grain for years."

"That is why the elevator had become 'Stevens' Folly.' He did not ask for rate reductions because his leader would not let him. He heard the voice of Montreal, Winnipeg and Port William, but he never heard the voices of Alberta or his own city of Vancouver. But he is going to hear it now."

**ATTORNEY-GENERAL PRAISES MUNICIPALITIES FOR SUPPORT IN LAW ENFORCEMENT IN B.C.**

**Relations Are More Harmonious Than for Many Years Past, Says Hon. A. M. Manson in Address to Delegates to Union Convention.**

"Next to the Legislature itself, the convention of the Union of British Columbia Municipalities is the most important body in the Province," declared Attorney-General A. M. Manson this morning, when addressing the convention session at the City Hall. "Your importance arises from the fact that you represent seventy-six per cent of the population of the Province, despite the fact that you represent less than one per cent of the area of British Columbia."

You represent bodies with a revenue of \$22,000,000, and a bonded debt of \$98,000,000, more than that of the Province itself. The importance of the Government in the municipalities and your actions in convention arises from the fact that the municipalities are the children and trustees of the Province, and the Government cannot for its own cause see the municipalities in difficulties.

**URGES CAUTION**  
Hon. Mr. Manson urged caution on matters of controversial policy, pointing out that it is better for the convention to take a stand in favor of the executive for mature consideration rather than pledge the influence of the Union, in error, to some course which might later be regretted by the Government, might result in disaster.

**PROBLEMS**

The Attorney-General illustrated the difficulties of governing this Province by comparing conditions with the prairie provinces. "Essentially, the Province is growing in territory, in great part what suits one area there suits all the province in both Alberta and Saskatchewan. The conditions are not so diverse as to require difference in administration. The convention in the Pacific Highway traffic, in July the Pacific Highway traffic increased over 2,300 cars over any previous year, and that is only one highway."

"Government in British Columbia is more difficult than in any other part of Canada," he said, asserting that democratic forms of government are the least efficient possible, but the people would stand for no other system. Mr. Manson considered the public attitude on public affairs to be a cause of this inefficiency, pointing out that the convention of the voters attend the polls and of that vote, thirty per cent is registered at the dictates of purely personal motives. "I don't disagree," he said, "with the statement that the solution for some of the problems I have outlined lies in education. Most such as these do not, good. Education spreads from the word of the delegates returned to their communities and through the press."

**DISINTERESTED OFFICIALS**

Declaring the advice of permanent Provincial officials to be disinterested, Hon. Mr. Manson said: "If the advice of these officials had been followed in the past, the debt of the people would be nothing like it is. Those officials should be a buffer between you and the people. Use them, but do not let them put the stick in your wheel, but their advice is invaluable to you."

**HARMONIOUS RELATIONS**

Hon. Mr. Manson examined the records of the convention of the municipalities and declared the relations between the Government and the municipalities to be more harmonious than present than for many years, partly due to lessened debt burdens, but even more to increased grants received by the municipalities from the Provincial treasury, an increase which amounts to 216 per cent as compared with a few years ago. The convention was assured that in the same period shows an increase of but 133 per cent.

The Attorney-General believed improvement in the relations between the municipalities and the Government, particularly regarding liquor law infractions, to be in great part due to replacement of imprisonment, by fines upon conviction. "And I notice," he said, "that change, a marked increase in co-operation, many municipalities show a great energy in any law enforcement which results in revenue."

The speaker saw an increase in public realization that the law was their own business, and the day when municipalities were pledged in advance to wide-open towns has passed. "That condition, I know, existed in many places," charged Mr. Manson.

**POLICE UNITS**

Entry of Provincial police units into municipal service, experimented with in six centres, is proving successful, the convention was assured. "I believe it will extend, and will save the people of the Province \$1,000,000 yearly. We do not intend to force municipalities to do what they can do for themselves. It is not a matter when only one police force will be general."

Mr. Manson appealed for support for the retention of the motor drivers to give signal of intention to turn, declaring the general practice of ignoring the rules to be dangerous in the extreme.

"I notice in your agenda a proposal advocating abolition of succession duties. I would point out to you that this proposal is a source of great developments, and it does not appear wise to suggest abolition of a charge all the other provinces collect, and shunt all the States of the Union demand."

In conclusion Hon. Mr. Manson urged necessity of keeping the municipalities upon a sound financial basis, pointing out that 1,550 new industries have been located in the Province in the past year, while Vancouver, he had been informed, is now the third manufacturing city in Canada.

In ten years this Province has jumped from a payroll of \$50,000,000 to over \$180,000,000. It has every advantage that could be asked for and is destined to be the best Province in the Dominion."

At the conclusion of the convention, the delegates to the Union of British Columbia Municipalities Convention were roundly applauded for the conclusion of an appeal for support for co-operation between the union and the Hospitals Association to solve hospital finance questions.

Mr. Banfield laid before the union, for consideration and support, the report to the Hospitals Convention at Nanaimo, made by the committee of municipalities. The following are the crucial points of this report:

The plan suggested is the appointment of a board of committee composed of three representatives, one from the Provincial Government, one from the Union of B.C. Municipalities and one from the B.C. Hospitals Association. This board would be properly constituted and given full powers to assess and collect from the organized and unorganized districts in the Province a sum of 85 cents per hospital day's treatment, which sum in turn would be paid to the hospitals on this basis for the number of days treatment which may be charged against each municipality. The rate of eighty-five cents per day is fixed only for one year. The figures are taken from the Provincial Government returns for the year 1923, afterwards the committee will fix the rate on a basis of costs.

**CHILD WELFARE TO BE DISCUSSED AT OTTAWA MEETINGS**

**Canadian Council Will Open Conference Next Week**  
**Immigration of Juveniles Subject on Agenda**

Ottawa, Sept. 22.—Plans for the future good of children in Canada, as well as a survey of what has been accomplished in the last five years, will be the subject of the annual conference of the Canadian Council of Child Welfare, opening here September 23. It is five years since the first conference was called by the Federal Department of Health. In the intervening time remarkable progress has been made in legislation and especially in the care of the child. The subject of many different organizations with the interest of child welfare at heart. The meetings will last for four days. Prominent speakers in Child Welfare in Canada will attend, also Miss Grace Abbott, chief of the Children's Bureau of the Federal Department of Health, in Washington. Mrs. Charles Thorburn, the president, will preside at the general meetings.

**ALL GAS TAX SPENT ON B.C. HIGHWAYS NOW**

**Good Roads Heads Wrong in Asking for Larger Share, Officials Assert**  
**Entire Revenue is Absorbed By Road Loans and Highway Maintenance**

While heads of the Good Roads League are demanding that a greater portion of the British Columbia gasoline tax be spent on roads, the Government actually is using every cent of this revenue for road purposes.

This fact was made clear by officials of the Finance Department here today after they had read in the newspapers reports of speeches before the roads organization yesterday.

All the gasoline revenue is required either for the payment of interest and sinking fund charges on outstanding highway loans or for maintenance of existing roads, it was stated. It has always been the policy of the Government to utilize the gasoline taxes for these purposes, it was explained.

Representatives of the Good Roads League will meet the Cabinet late this week to lay before it their organization's recommendations regarding the construction of new roads.

Springfield, Ohio, Sept. 22.—Inhaling the fumes from an automobile gas tank to get "drunk," Harold Rife, fourteen, was asphyxiated. Neighbors say the boy had told them he frequently "got drunk" by breathing in gasoline fumes.

Little Billy tripped over the edge of the carpet and dropped a tin dish of tapoca he was carrying. Picking himself up, he remarked, cheerfully, "That's jolly lucky!"

His mother was indignant. "What's jolly lucky, I should like to know?" she asked. "Why, it's jolly lucky I don't like tapoca," replied Billy.

## VANCOUVER ISLAND NEWS

### Sidney News

Special to The Times

The kitchen shower held in the Experimental Farm Park on Saturday afternoon under the auspices of the North Saanich Social Club was very successful, large donations of China and kitchen utensils being given. About \$17 in cash was taken through the candy, ice cream, ladder golf and treasure hunt. An enjoyable afternoon was spent, quite a large number of people being present. The treasure hunt caused great amusement and was won by Mr. George Clark, the prize being a beautiful vase. The bean guessing competition was won by Miss A. Toomer, who was presented with a large box of chocolates.

The winners of the ladder golf were: First, Miss Gertrude Straight; second, Miss Alma Gorton; third, Mrs. George Clark; fourth, Mrs. Chancellor.

The champions set was won by Miss Alma Gorton.

The committee in charge of the afternoon was convener Mrs. Reading, assisted by Mesdames Jerny, Toomer, W. Clarke, Chancellor and Sansbury. Sports were held for the little ones. The next activity of this new club which already has one hundred members is the inaugural dinner which is to be held on Saturday, September 26 at 7 o'clock in the old schoolhouse, School Creek Road. The dinner will be followed by speeches, music and dancing.

### Chemainus News

Chemainus, Sept. 22.—Mrs. Herbest Robinson entertained at a delightful tea at her home last Friday afternoon. The room and table were very charmingly decorated with a profusion of lovely autumn flowers and leaves. Those present were Mrs. I. P. Smith, Mrs. Frank Reed, Miss Kathleen Burnside, Mrs. Hallberg, Mrs. L. G. Hill, Mrs. J. Taylor, Mrs. E. M. Cook and Mrs. Robinson.

At the Cowichan Fall Fair, held at Duncan last Friday and Saturday, Mr. Thomas Porter's Jersey bull, Sultan's Owl of Fendale, carried off the first prize, also the grand championship.

Mrs. M. F. Halded has returned home after spending a week in Vancouver, where she represented the local branch of the W.A. at the Dominion convention.

Mr. A. Pearmain, Miss Edna Pearmain and Miss Corbett, Victoria, were recent guests of Mr. and Mrs. Harry Longridge.

Mr. Alex. Dunne has returned from Vancouver, where he was the guest of Mr. and Mrs. R. Fetterly.

The Rev. E. M. Cook, pastor of Calvary Baptist Church, held his usual monthly service at Genoa Bay last week.

Mr. R. B. Halded, immigration inspector, has returned home from Genoa Bay where he spent two days on business connected with his department.

### MURDER CHARGE FOLLOWS WEST COAST BRAWL

Indian and White Man to Stand Trial at Nanaimo Assizes

Nanaimo, Sept. 22.—At a night session of the Provincial police court, presided over by Stipendiary Magistrate Beaver Potts, James King, white, and George Olear, Indian, were committed for trial Saturday on a charge of murder in connection with the death of Louis Jamieson, Indian, at Kyquot, West Coast of Vancouver Island, on August 6, last. The case was originally called for Saturday at 1 p.m., but owing to the non appearance of accused's counsel, W. C. Ross of Vancouver, an adjournment was granted until the evening.

### DRUNKEN ROW

The Crown alleges that Jamieson's death was the result of a drunken row following a visit in the evening to the Jamieson home by the accused, who brought with them a bottle of rum. Dr. J. A. Street gave evidence to the effect that he had found Jamieson's body in deceased's home, the morning after the alleged tragedy with the skull fractured between the eyes. He would not swear that it had caused death.

There were no other marks on the body, Oscar Dean, Indian, swore that another Indian had taken him to the scene of the crime where he saw the body stretched out on the floor, together with an empty Imperial quart rum bottle, and a mackinaw coat which he declared he had seen Olear wearing previously. Slow progress was made in taking of the evidence of Mrs. Jamieson, a full-blooded Indian, widow of the late Louis Jamieson, who knew only the West Coast dialect.

### BOTTLE OF RUM

Paul White was first sworn as interpreter, but he could not make the woman understand and eventually Oscar Dean, one of the West Coast witnesses, was chosen in his place. Mrs. Jamieson avers that on August 5, last, accused came to her home at 11 p.m. as she was putting her four-year-old child to bed. The visitors produced a bottle of rum, which the men proceeded to drink. Mrs. Jamieson did not join them, and after her husband had taken five drinks, he refused more. King did not take kindly to the refusal and a scuffle ensued. She became frightened for the safety of her child and when she had removed her from the bed and was leaving the house, the light went out. She heard a fall and she hurried away, and she remained outside until 4 a.m. when she saw the prisoners leaving the house.

### FOUND HUSBAND DEAD

Returning to the house she had found her husband dead and noticed he had a mark between his eyes. Constable William of Port Alice, eighty miles distant, told of finding the body. No arrests were made until August 14, when Olear was sentenced before a magistrate to two weeks in Oakalla for being drunk, and King was fined \$200 and given two months in jail for furnishing an Indian with liquor. At Saturday's trial accused's counsel asked to have the charge reduced to manslaughter and while the magistrate agreed that the evidence leaned that way, he believed a jury should determine the matter.

It is likely the case will be heard at the Fall Assizes here which open October 27.

### NEW TEMPERANCE CAMPAIGN IN U.S.

Washington, Sept. 22.—A campaign to intensify the teaching of temperance in the churches will be undertaken by the Federal Council of Churches of Christian America as a sequel to disclosures made in the prohibition report of the council's research department.

This report, made public in several installments during the past week, declared a prohibition was facing a supreme test and placed part of the blame for present conditions on the failure of the churches themselves to keep alive the temperance crusade, which was an integral part of their activities in pre-Volstead days.

Some of the research department's findings have been assailed by Dr. Clarence True Wilson, secretary of the Methodist Board of Temperance, who questioned the department's authority to compile and issue a report on prohibition.

To show the character and purpose of the inquiry, Rev. Sinclair Crea Cavert, general secretary of the Federal Council, issued a statement in which he emphasized the need of a revival of church effort on behalf of a dry country.

The report on the social study of the consequences of prohibition by the research department of the Federal Council of Churches had come from friends of prohibition, said Mr. Cavert.

"An effort was made to find the facts so they could be frankly faced," he said. The churches cannot work intelligently unless they have an exact and thorough knowledge of the conditions that confront them.

"The report does not pretend to be conclusive, but to show unmistakable trends. It has no relation whatever with the policies of the churches composing the Federal Council. Those churches and the council itself are clearly in record as favoring prohibition."

"In initiating and furnishing the administrative staff for the citizens' committee of one thousand, the Fed-

### Ganges News

Special to The Times

Ganges, Sept. 22.—The Island Princess missed her usual run on Saturday, owing to part of the propeller being broken. Mail was brought in by launch, which met one of the larger boats in the pass on Saturday afternoon.

The Girl Guides' Association will hold a jumble sale, Tables of plants and home cooking will also be offered for sale. The Girl Guides will be in charge of the tea. Proceeds will be used to help get their uniforms.

The basketball club will hold their annual meeting at the Central Hall on Thursday evening, October 1.

Mrs. Shade and daughter Betty will return to Victoria on Monday after spending about a month with Mr. and Mrs. J. S. Jones.

Mr. and Mrs. Fredy are returning East via Kamloops on Tuesday, after spending about a month with Mr. and Mrs. J. S. Jones.

Mrs. Kerr returned to Ganges from Vancouver this week.

The following are the guests at Harbor House: S. J. Ferns, Calgary; S. H. Hopkins, Courtney (cattle judge Provincial fair); Jas. M. Anderson, Jas. Turner, Victoria (horse judge Provincial fair); T. C. Oldershaw, Sooke (V.I. poultry judge); Mrs. A. L. Gordon (women's work judge, Victoria); Phillips, Produce, Victoria; Mr. and Mrs. Jack Kellogg, Mr. and Mrs. Arthur Grave, Mrs. Tilly A. Duke, Arthur Duke and Raymond Nicholson, Alert Bay; Colin L. Kennedy, Mrs. L. Kennedy and child, R. Walbrath, D. W. Saunders, S. May and Mr. and Mrs. C. W. Armstrong, Crichton Cove.

A cricket match was played on Saturday afternoon between a team from Galiano Island and a team captained by A. Oxenham. Galiano won by two runs. A return match will most probably be played next week at Galiano.

### Qualicum News

Special to The Times

Qualicum, Sept. 21.—The regular meeting of the public health nursing committee was held at Qualicum Beach on September 11. All members were present with the exception of Dr. Davidson. The name was changed to Qualicum and District Public Health Association. The Qualicum Beach and District Women's Institute donated \$50 and half of the proceeds of two dances to be held in the near future to the association. Other donations were announced: one of \$10 from Mr. Cause of Errington.

The financial report was: Receipts, \$466.95; disbursements, \$426.97. Miss Murray, R.N.P.H.N., reported on August work as follows: Home visits 113, nursing visits 27 (eleven free), pre-natal visits 8, confinements 1, post-natal visits 8, child welfare visits 28, pre-school visits 22, phone calls and business visits 138, minor treatments 37, interviews and miscellaneous 143.

Mr. Ford reported that the French Creek school ratapayors had voted \$140 towards the funds of the association for nurse's salary.

Mrs. H. H. Harrison of Parksville resigned from the committee, and her resignation was accepted with regret.

The next meeting will be held at Capt. Waidie's residence on October 2.

Great Council of Churches during the past eighteen months has made distinctive contributions to the challenging task of developing public support for the fifteenth amendment. The hour has struck for following up these steps by means of a constructive programme for temperance education in all the churches.

### Prison Sentence For Bank Teller

London, Ont., Sept. 22.—Herbert G. Brewer, twenty-four-year-old Bank of Montreal teller here, was sentenced to two and a half years in the Kingston penitentiary when he appeared before Magistrate Graydon in court yesterday after pleading guilty to charges of defalcation of the bank's accounts and theft of more than \$7,000.

Brewer's thefts covered a period of more than a year, during which time he cashed cheques for a friend which were not covered by a bank account. Not one cent of the money did he himself actually gain, he told the court. In turning over the money to his accomplice, police declare Brewer was the financial help of a bootlegging venture, and believed the shortages could be made up after profits from the sale of liquor rolled in.

### Coal Discovered In Quebec Area

Montreal, Sept. 22.—Reports have reached Montreal of the discovery of a vein of coal, almost identical with anthracite, in Compton County. Work is being pushed in an endeavor to find the main seam. Geologists have long maintained there is practically no coal in Quebec.

### P. W. Bartlett, U.S. Sculptor, Died

Paris, Sept. 22.—Paul Wayland Bartlett, United States sculptor, died here Sunday, aged sixty.

## Angus Campbell & Co. Ltd.

1010 GOVERNMENT STREET

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-acetate of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public in avoiding imitations, the Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### Aircraft Inquiry in United States

Washington, Sept. 22.—The President's special aircraft inquiry is in progress. Yesterday representatives of the War Department were on the witness stand, asking for more and better aeroplanes, but objecting stubbornly to Colonel William Mitchell's pet project for a separate, unified air service.

Col. Mitchell, whose activities in connection with the nation's air policies have furnished a series of sensations, has been relieved of all active duty, it is learned.

Major-General Ernest Hindle, commanding the Eighth Corps area at San Antonio, signed the order by which the former assistant air chief of the army service was placed on the inactive list.

### TO ANSWER CHARGE

Vancouver, Sept. 22.—After a two-months' transcontinental chase, James Corney, alias Joseph Mauro, alias Fraust, twenty-five years old, was taken into custody here by Detective Armand Brodeur of Montreal, where he is wanted in connection with the killing of Donald Coarogher and the wounding of E. A. Duffy last July 22.

### LOGGER BADLY INJURED

Port, Coquitlam, B.C., Sept. 22.—Struck by a falling branch, O. Nelson, a logger, lies in a precarious condition in a hospital here with a broken neck.

## HOW THE TARIFF WILL AFFECT THE UNITED STATES

EXPERTS IN THE United States who are taking the long view of the economic situation and its special relation to the country's fiscal policy continue to pronounce that the tariff must be lowered if a serious export slump is to be avoided. They point out that the high duties have seriously reduced the volume of imports and contend that unless Europe sells the republic more than it is able to sell at the present time, ultimate dislocation of United States foreign trade will be produced by the inevitable contraction of its exports.

This condition is viewed with distinct alarm by Benjamin M. Anderson, the well-known economist of the Chase National Bank of the City of New York. He bases his argument upon what he says the war developed—a fear of production. He agrees that business has been good in the neighboring republic since last autumn; but he likewise points out that there are forces at work "making for reaction" which "we ought to eliminate while there is still time; the chief of these is our excessively high protective tariff." Mr. Anderson then goes on to show that the creditor position of the United States has for some time justified the expectation of an adverse balance and declares that the fulfillment of that expectation so far has been delayed by the following facts: "(a) Europe, until recently, has been paying almost nothing to our Government; (b) Europe, until recently, has been draining herself of gold to buy goods and pay private debts here; (c) Our very high tariffs have checked imports, deferring the time of the adverse balance, but making it all the greater when it finally comes. The tariff, if high enough, can even permanently check imports, but if so it will lead to a great slump in exports when the abnormal factors sustaining exports cease to operate. (d) The main influence sustaining our favorable trade balance has been the vast volume of foreign loans we have been making."

Of this "fear of production" which he says has become an absolute obsession—Mr. Anderson has this to say:

For the past century and a half power machinery and a constant succession of mechanical inventions have been bringing luxuries to the masses of men unknown to the kings of earlier generations. Consumption has kept pace with production. Our 100,000,000 people consume vastly more than the 400,000,000 people of China—because they produce more, and so can afford to consume more. And yet we fear reviving production in Europe, and fear to let Europe send us goods to pay her debts to us. Supply of one product constitutes demand for other products. Imports constitute demand for exports. Imports coming in as payment for debts do not lessen domestic demand for domestic products. Rather they increase by an equal amount the buying power of the country."

These are the views of a prominent economist who is concerned about the ebb and flow of trade and commerce and only interested in political policies as far as they influence economics. The plight of the textile industry in the New England states, where trade is languishing and wages are being cut, furnishes a striking proof of the accuracy of Mr. Anderson's analysis of the country's position.

## JOIN THE CHAMBER

THE VICTORIA CHAMBER of Commerce is about to start a campaign to add 150 new members to its roster. It appeals for support upon its achievements. It has every reason to be proud of its achievements. It again asks men and women with constructive ideas to attend its forum meetings. At these gatherings proposals for the advancement of the city and the city's business are discussed and analyzed. Not every idea is adopted. But if each meeting produces one tangible plan, no matter

how small, that meeting has justified itself. Many reasons, of course, could be advanced in support of the Chamber and its aims. Our injunction is: Join and help your city—and yourself.

## MR. MEIGHEN AND GOLF

MR. MEIGHEN OBJECTS to the expenditures which the Canadian National Railways is making on golf courses. Hon. George P. Graham takes him up in this way:

"He doesn't tell the people that the Canadian Pacific Railway has a wonderful hotel at Banff, Alberta, and a golf course has been constructed there largely for the guests of the C.P.R. and their visitors. This golf course was paid for by the Government. At this, my good friends, Mr. Meighen, has never sneezed. He did not tell the people that St. Andrews-by-the-Sea, N.B., one of the most attractive spots in the world, has a wonderful C.P.R. hotel, connected with which is a magnificent golf course, tennis courts, etc. What for? Not that they pay themselves, although I presume they do, but that people may come there over the Canadian Pacific Railway. If it is good business for the Canadian Pacific Railway to do this, is it bad business for the Canadian National Railways to do it?"

Just a few days ago Sir Henry Thornton and Mr. J. G. Gardiner, one of the directors of the Canadian National—and, by the way, a great friend and supporter of Mr. Meighen—returned from Jasper Park, where the links about which Mr. Meighen has been talking were being constructed. They both reported to me an increase in business at the hotel, and an increase in traffic for the railways, so much so that the hotel and cottages connected with the hotel were all full, and people were sleeping in Pullman cars. I conversed with Mr. Gardiner, who is one of the shrewdest business men in Canada, and he was most enthusiastic about the new life that had been worked up at St. Andrews. He said that he would suggest that Mr. Meighen consult his friend, Mr. Gardiner, and then be advised by him as to what attitude it would be wise in the public interest to assume on these questions.

"Mr. Meighen's policy, in effect, says to the great spending, traveling, tourist public: 'Don't go by the people's railway to Jasper; go by the other line to Banff, where you can have these amusements.' Don't go to Banff, owned and controlled by the Canadian National Railways, but take the C.P.R., and go to St. Andrews-by-the-Sea."

The progress of the Canadian National under Sir Henry Thornton must be annoying to the Conservative leader. It upsets all the predictions of disaster which he and his friends have made and "puts the wind up" the gloomsters in general.

## VISITING JOURNALISTS

IT IS AN EXCELLENT thing for the working journalists of the larger and more influential newspapers of Great Britain to come to Canada and find out for themselves just what conditions are. There is much for them to see and great opportunities for them to tell the Old Country public about their travels. With first-hand information in their possession they are in a position to take a more authoritative hand in the discussion of Canada and Canadian affairs. The party which the Victoria newspapers greeted yesterday was composed of men of considerable standing in the journalistic profession in the Old Land and their investigations, somewhat hurried as they have had to be, have given them a great deal of material for thought. Most of them are on their first visit and they will go back to their duties confirmed friends of this country and fully persuaded of its great future. We want more of these visitors from Britain.

## CRAIGFLOWER SCHOOLHOUSE

SUCH STEPS AS MAY BE necessary to preserve the Craigflower Schoolhouse for the people of the Province should be taken by the provincial Government. It is the most valuable and interesting educational possession of a historic nature in the whole of British Columbia and it should be a thousand pities if it should be lost to the public. It was unfortunate that the building was permitted to pass from the control of the authorities. Very little use has been made of the structure by Saanich and on more than one occasion we are informed its destruction has been considered. The School Board of the neighboring municipality very naturally is not in a position to appropriate funds to assure its permanence as a landmark. But its historical associations are such as obviously warrant prompt action by the Province, whose property it originally was and in whose educational service it was an important factor for many years.

There is danger of mistaking wandering thought for brilliant thought. Discursiveness is not brilliancy.

## WORDS OF WISE MEN

What stronger breakfast than a heart unfilled?  
 Thrice is he armed that hath his quarrel just.  
 And he but naked, though locked in steel.  
 Whom conscience with injustice is corrupted.  
 —Shakespeare.

Brevity may be the soul of wit, but it is very far from being the soul of truth.  
 —Holmes.

The foundations of our public morality must be laid deep in the public intelligence and virtue.  
 —Curtis.

A sorrow's crown of sorrow is remembering happier things.  
 —Dante.

The supreme happiness of life is the conviction that we are loved; loved for ourselves, say, rather, in spite of ourselves.  
 —Victor Hugo.

We must force our minds to the study of that which is at first disagreeable to us.  
 —Johnson.

When we are the dishonor of a thing, then it is time to renounce it.  
 —Plutarch.

Eloquence is made up at once of individuality and of sympathy. To live much in ourselves, to live much in others—such is the double condition of powerful speaking.  
 —Vinet.

The year passes quick though the hours tarry, and time thy though I presume they do, but that people may come there over the Canadian Pacific Railway. If it is good business for the Canadian Pacific Railway to do this, is it bad business for the Canadian National Railways to do it?"

## WHO'S WHO IN HISTORY TO-DAY

TUESDAY, SEPT 22

WILKIE COLLINS  
 English novelist, died at London on Sept. 22, 1892. Among his works are "The Woman in White," "The Moonstone," and "The No. 13 Chisel." He also wrote "The Hound of the Baskervilles" in collaboration with Charles Dickens.

EURIPIDES  
 Celebrated Athenian tragic poet, was born on a date corresponding to Sept. 22, 480 B.C. He is said to have won the first prize in five dramatic contests. His departure from Athens for the Macedonian court, where he died, was reputed to have been occasioned by the ridicule of the populace resulting from the attacks of Sophocles and Aristophanes. Among his plays that are extant are "Medea," "Alceste," "Andromache," and "Iphigenia at Aulis."

AUGUSTUS CAESAR  
 First Roman Emperor, grand-nephew of Julius Caesar and his chief heir, was born on a date corresponding to Sept. 22, 63 B.C. Following the murder of Julius Caesar, he formed an alliance with Anthony, with whom he later broke and became sole ruler of the Roman dominions. During his reign Roman literature reached its highest point.

ISAAC HAYNE  
 Noted American patriot, was born on Sept. 22, 1745. Taken prisoner by the British at the siege of Charleston, S.C., he took the oath of allegiance to the king of the assistance that he would not be required to bear arms against his country. When summoned later to join the British Army, he considered himself released from his oath, and was captured by the British and hanged.

THE WEATHER  
 Daily Bulletin Prepared by the Meteorological Department.

Victoria, Sept. 22.—5 a.m.—The barometer remains high over this Province and a moderately warm weather prevails from the coast eastward to Manitoba.

Reports  
 Victoria—Barometer, 30.11; temperature, maximum yesterday, 65; minimum, 52; wind, 10 miles N.; weather, clear.  
 Vancouver—Barometer, 30.12; temperature, maximum yesterday, 64; minimum, 46; wind, calm; weather, clear.  
 Kamloops—Barometer, 30.16; temperature, maximum yesterday, 60; minimum, 42; wind, calm; weather, clear.  
 Prince Rupert—Barometer, 30.18; temperature, maximum yesterday, 64; minimum, 40; wind, calm; weather, clear.  
 Esquimalt—Barometer, 30.10; temperature, maximum yesterday, 60; minimum, 46; wind, 4 miles S.W.; weather, clear.  
 Tatonah—Barometer, 30.06; temperature, maximum yesterday, 56; minimum, 40; wind, 23 miles N.E.; weather, clear.  
 Portland, Ore.—Barometer, 30.04; temperature, maximum yesterday, 72; minimum, 54; wind, 4 miles N.W.; weather, clear.  
 Seattle—Barometer, 30.08; temperature, maximum yesterday, 68; minimum, 52; wind, 4 miles N.; weather, clear.  
 San Francisco—Barometer, 29.98; temperature, maximum yesterday, 76; minimum, 58; wind, 4 miles S.E.; weather, clear.

## TORONTO POLICE TO REDUCE BETTING

Toronto, Sept. 22.—Toronto police constables have gone rather too heavily into the practice of betting on horse races, according to Chief of Police Dickson, who has issued an order that members of the force must obtain permission from their inspectors before attending race meetings in or out of Toronto.

There is some comment among the members of the force to the effect that too many official restrictions are being placed on their off-duty movements and relaxations.

J. A. WALKER DIED IN CHATHAM, ONT.  
 Chatham, Ont., Sept. 22.—Prominent in legal and political circles, J. A. Walker, K.C., died here Monday. He was a well-known Liberal.

## PROGRESSIVES GIVE MASSEY SUPPORT IN DURHAM, ONTARIO

New Member of Federal Government Nominated by Liberals

Nominations in Number of Divisions Throughout Canada Are Reported

Toronto, Sept. 22.—Hon. Vincent Massey, a member of the Federal Government without portfolio, was nominated as Liberal candidate in Durham County, Ontario, last night. He was assured of the support of the Liberals and Progressives of the constituency in the coming Federal general election when after a joint meeting of the executives of the two local parties it was announced that Progressives had endorsed his candidature.

REGINA, CANDIDATE  
 Regina, Sept. 22.—Frank N. Drake last night was nominated Liberal candidate in Regina city in the Federal general election.

RED DEER NOMINATION  
 Red Deer, Alta., Sept. 22.—Thomas McKee, a prominent merchant of Olds, was the unanimous choice of the Liberals of the Federal riding of Red Deer at the convention yesterday to contest the forthcoming election. Hon. Charles Stewart, Minister of the Interior, was the chief speaker.

QUEBEC CANDIDATES  
 Montreal, Sept. 22.—C. Robitaille was nominated Federal Liberal candidate in Maisonneuve last night.

Dr. H. Desautels was nominated by the Liberals of the St. Mary Division of Montreal. He represented the constituency in the late House of Commons.

J. P. Desrosiers was nominated by the Liberals of Nicolet, Que. He was a member of the late Parliament.

EASTERN NOMINATIONS  
 Ottawa, Sept. 22.—Nominations for the House of Commons have been made as follows:

King's, P.E.I.—J. J. Johnston, K.C., Liberal.  
 South Ontario—L. D. Clifford, Liberal.

North Renfrew, Ont.—Dr. M. McKay, Liberal.  
 Brantford—W. G. Raymond, Liberal.

Levis, Que.—Dr. H. M. Dussault, Liberal.  
 Chicoutimi, Que.—J. L. Lescaze, Liberal.

West Essex, Ont.—E. B. Winter, Liberal.  
 Welland, Ont.—R. W. Gladstone, Liberal.

North Renfrew, Ont.—Dr. I. D. Cotnam, Conservative.  
 York-Sunbury, N.B.—R. B. Hanson, Conservative.

West Lambton, Ont.—R. V. Lesueur, Conservative.  
 St. John's, Nfld.—J. A. Fraser, Progressive.

Bellechasse County, Que.—P. Audet, Conservative.  
 Kent County, Ont.—J. W. Ward, Progressive.

South Bruce, Ont.—J. W. Findley, Progressive.  
 West Hants, N.B.—Dr. O. B. Price, Conservative.

Inverness, N.S.—I. McDougall, Conservative.  
 PARKDALE CANDIDATE

Toronto, Sept. 22.—David Spence was nominated last night as Conservative candidate for the House of Commons in Parkdale, Toronto.

In North Wellington, Ontario, the Conservatives nominated Duncan Sinclair.

SKENA CONTEST  
 Prince George, B.C., Sept. 22.—George W. Nicholson, pioneer broker and commission merchant, has received the endorsement of Robert Forke, Progressive leader, and will contest the Skeena riding as a Progressive in the Federal general election. This will make a three-cornered fight, the other candidates being Fred Stork, Liberal, and George Bushby, Conservative.

CARIBOO CANDIDATE  
 Kamloops, Sept. 22.—J. A. Fraser of Quebec is Conservative candidate for the House of Commons in Cariboo. At the convention here yesterday he received ninety-one votes to twenty-seven for Dr. A. K. Connolly of Salmon Arm. The name of Mayor E. McQueen of Kamloops also came before the convention, but withdrew owing to civic duties.

When Mr. Fraser entered the convention hall he brought with him a broken nose and two black eyes, injuries suffered while driving down to Kamloops from his home town, when his car was in collision with another car near Cache Creek. He came from a hospital to the convention.

STATEMENT BY FORKE  
 Winnipeg, Sept. 22.—"The endorsement of Hon. Vincent Massey by the Progressives of Durham, Ontario, has no general party significance whatever," said Robert Forke, Progressive leader, to-day. Mr. Forke said the principles of the Progressive Party were clear on the subject of local autonomy and that any unit of the party organization might take such a step as had been taken by the Progressives in Durham in supporting Mr. Massey as a Liberal without committing the party in any way.

YORKTON CANDIDATE  
 Yorkton, Sask., Sept. 22.—George W. McPhee, prominent Yorkton barrister, was the choice of a Liberal convention here to contest the newly organized Federal constituency of Yorkton in the general election October 29.

A resolution passed by the convention, after expelling a candidate in the Government of Mackenzie King, favored completion of the Hudson Bay Railway.

Winnipeg Now Has One-Man Cars  
 Winnipeg, Sept. 22.—Paced with the threat of strike of street railway employees to force the recently installed "one-man" cars out of operation in Winnipeg, the city council last night debated at length before approving a vote of ten to eight the report of the safety committee endorsing the cars and turn-

## KIRK'S Wellington

1212 Broad St. Phone 139

The Triumph of Expert Tea Blending Sold by Grocers throughout Canada

ing down by a similar vote a motion to compel the Winnipeg Electric Railway to put two men in every car.

A mass meeting of street railway employees will be held October 3 to decide on further action.

MORE IMMIGRANTS FOR THIS COUNTRY  
 Hon. G. N. Gordon Says Government's Agreement With Railways Will Cut Red Tape

Toronto, Sept. 22.—"There has been no letting down of the bars, no relaxing of the restrictions as to the kind of immigrants that may enter Canada, in favor of the railway companies," said Hon. G. N. Gordon, Minister of Immigration, here yesterday. "All that has been done is to arrive at an understanding that will do away with a good deal of red tape which the railway companies claim has been retarding immigration to Canada."

Mr. Gordon made this statement when his attention was drawn to a report that E. W. Beatty, president of the Canadian Pacific Railway, had stated in the course of a recent speech that "the settlement of the West will proceed more rapidly now under a new agreement with the Federal Government, whereby the Canadian Pacific and Canadian National Railways have been given a free hand to select, transport and dis-

tribute all colonists who can be assimilated, with the further privilege of issuing the necessary permits for their admission."

Warrant Issued But Not Served In Kelso, Wash.

Kelso, Wash., Sept. 22.—A warrant upon a complaint charging A. Ruric Todd, deceased Mayor of Kelso, with malicious prosecution was issued yesterday by Justice C. A. Poland, following the arrest and immediate dismissal of George Norris, Kelso city engineer, who on Sunday night was charged by Todd with the murder of Thomas Dovers on June 19. Norris was released upon order of Hite Innes, county prosecutor.

The warrant against Todd has not been served for the same reason that Norris was released Sunday night. The prosecutor ruling that a felony warrant could not be issued by a justice of the peace without an information being filed by the prosecuting attorney.

Luke S. May, Seattle criminologist, was expected here to-day. He has been employed by the county in the Dovers murder case.

Additional deputies and police were on duty to-day as feeling is running high in the city, although there have been no outbreaks.

NEGRO LYNCHED BY A MOB IN GEORGIA  
 Milledgeville, Ga., Sept. 22.—Willie Dixon, a negro inmate of the Georgia state sanitarium for the insane, who last week killed Miss Amy Oxford, a nurse, was taken from the colony farm near here to the Wilkinson County line last night and lynched.

Dixon was chained to a tree and beaten to death. The coroner's jury returned a verdict that the negro had met death at the hands of "parties unknown."

No arrests have been made. Miss Oxford was attacked by the mob Tuesday as she was passing the negro ward and was beaten to death.

The Kuntuka Club are planning a social afternoon on Saturday, October 3, at the home of Miss K. McLaren, Logan Avenue. Further announcement will be made later.

Evening Technical Classes  
 of the Victoria School Board open Monday, October 5 at 7.30 p.m. at the HIGH SCHOOL Fernwood Road. Syllabus at School Board Office, Phone 525.

## PRISONERS USED DUMMY REVOLVERS TO MAKE ESCAPE

Seattle, Sept. 22.—The escape of six prisoners from the King County Jail here last Thursday was effected by the use of cardboard dummy weapons. It was revealed here yesterday by Sheriff Matt Starwich. Two cardboard duplicates of .45-caliber pistols were found shortly after the break in the tank occupied by Floyd Richardson and T. H. Johnson, two of the escaped fugitives. Starwich said:

WOULD CHANGE NAME OF VANCOUVER, WASH.

Some of People There Say Too Much Clashing With Vancouver, B.C.

Vancouver, Washington, Sept. 22.—Agitation designed to change the name of Vancouver, B.C., Columbia, carried on here by a weekly newspaper and referred to in press dispatches, has received no official consideration, it is learned here, and at present no official action is contemplated.

The agitation for a change in name for Vancouver is based first on the claim that Captain H. George Vancouver, for whom the city was named, personally did little in the discovery and development of the territory surrounding Vancouver.

Next, the claim is thrown for thrifty United States citizens, has made it impossible for Vancouver, Wash., to get recognition or publicity. It is claimed. A large percentage of mail addressed to Vancouver, Wash., is sent first to Vancouver, B.C. Railway ticket agents have shown a total lack of knowledge of Vancouver, Wash., and easterners intending to visit friends in Vancouver, Wash., sometimes get off the train in Vancouver, B.C., for that purpose.

Crippled Veterans Meet in Winnipeg

Toronto, Sept. 22.—Headed by Capt. Sidney Lambert, Dominion president of the Amputations' Association of the Great War, a delegation of about seventy Ontario members of the organization is on its way to Winnipeg to attend the fourth convention of the association. Among other leaders in the Ontario party are A. Sutcliffe, Dominion secretary, and W. S. Dobbs, Toronto, president.

An announcement made by the local association said:

"The convention will be in the nature of a celebration of the great successes attained by the association during the past year when they secured from the Government increased pensions and a clothing allowance, and also was instrumental in securing from the Government the permanency on the pension bonus which has been paid to all pensioners during the last few years. In this way a high cost of living bonus added to the pensions some years ago has been made a permanent part of the pension and society of all war pensioners concerning this has been allayed."

Banks and Trust Reserves Down  
 New York, Sept. 22.—The actual condition of clearing house banks and trust companies for the last week shows a deficit in reserve of \$15,574,470.

NEUTRALITY DECLARATION  
 Tokio, Sept. 22.—The Japanese Cabinet, informed of the probability of civil war in China, yesterday voted unanimously that Japan would maintain strict neutrality.

CANADIAN FAILURES  
 Toronto, Sept. 21.—The number of commercial failures in Canada as reported by R. G. Dun & Company for the last week was fifty-nine, as compared with thirty-nine for the corresponding week of last year. This week's failures by provinces were as follows: Quebec, thirty; Ontario, fifteen; British Columbia, five; Manitoba, four; Saskatchewan, two; Nova Scotia and Prince Edward Island, one each.

## ROOF GUN FIGHT GREET'S POLICE IN CHINATOWN RAID

Rookeries Sifted, Arrests Are Made, Battle of Bullets Staged Above N.Y. Street

Safe, Burst Open, Reveals Weapons and Steel Vests; Caches of Dope Seized

New York, Sept. 22.—A flying squadron from the Narcotic Bureau, headed by Special Deputy Commissioner Carleton Simon, continued to go after Chinese opium sellers and gun totes. The squadron raided several places, finding narcotics.

The raids here began when the Commissioner and his forces descended upon a barber shop at No. 18 Mott Street. Taking the occupants by surprise, a search police said, revealed four loaded revolvers and a quantity of opium. Fung Sweeney, twenty-seven, barber, and Ng Poon Ted, fifty-seven, said to be owner of the shop, were charged with possession of concealed weapons and narcotics.

"RIP IT OPEN," SAYS MAGISTRATE

A safe in a rear room aroused the curiosity of Commissioner Simon. He asked the Chinese to open it; they refused. Yesterday the Commissioner sent Detective James Brady for a search warrant from Acting Chief Magistrate Barrett. Issuing the warrant the Magistrate declared himself in complete accord with the action of the police.

"If necessary, rip the quarter wide open in your efforts to clean it out," he said. "We cannot tolerate conditions as they have existed. Fill back you to the limit with the machinery of the courts."

Armed with the warrant, police employed a professional safecracker, who soon opened the strong-box. Commissioner Simon said he found in a secret compartment six new special .38-caliber revolvers and three automatics, more than a thousand rounds of steel-jacketed bullets, six steel vests and a small quantity of opium.

The night before, as the raiding party went through the building at No. 18 Mott Street to the room, they were met by a fusillade of shots from the roof of No. 11. Seeking cover behind chimneys and ventilators, the narcotic squad men returned the fire. More than fifty shots were fired. No one was injured. The search of the Harry Chain, fifty-four, a cook, on a charge of having opium in his possession.

OPIUM FOUND

After the safe was opened Commissioner Simon called his squad together and issued orders to go through the rookeries in Mott and Pell Streets. A raid on the Hip Sing headquarters at No. 13 Pell Street, resulting in the arrest of Harry Chain, fifty-four, a cook, on a charge of having opium in his possession.

Almost simultaneously a raiding party swooped through No. 49 Mott Street. A thousand evil stenches of the Occident Orient assailed the nostrils. Here Leung Kuong, eighteen, of No. 13 Mott Street was caught as he was attempting to leave the premises. Search revealed a small tin of opium.

The entire squad assembled for a raid on No. 14 Pell Street. The rookery is considered by police one of the most notorious places in Chinatown. As the squad entered the cubby-hole inhabited by Lee Fung, fifty-six, he exhibited extreme nervousness. Search revealed a package of opium under the bed.

By this time the streets of Chinatown were choked with chattering Chinese. The quarter had been taken by surprise. Further raids were considered useless.

GUN DEPOT FOUND

"The barber shop we raided was merely a blind," said Commissioner Simon. "It was really a gun depot for the use of gunmen. They would keep their guns here in readiness for an outbreak."

"So far as the police are concerned, this section must and will be cleaned up. I'll keep after them in here, and if lawlessness persists I shall take steps to have all Chinese arrested and deported."

At any rate, he said, the Chinese

taken in yesterday's raid would be deported. Unofficially, immigration authorities are taking great interest in the Chinatown situation. The smuggling of Chinese into this country has been a thorn in the side of the service for some time.

## Manitoba Voters' Lists Discussed

Ottawa, Sept. 22.—There is no doubt about the legal position in this matter," said Col. O. M. Biggar, Chief Electoral Officer to-day, referring to the protest of the Winnipeg Conservative Association against the use of the 1922 voters' list in Manitoba in the coming Federal election. Col. Biggar pointed out that the provincial lists were prescribed by statute and his so-called order that the 1922 lists should be used was merely a ruling in answer to a query from a returning officer in Manitoba. The Manitoba statutes clearly provide that the 1922 lists, provided for the taking of a referendum were the existing legal lists and he had ruled accordingly.

If all political parties in Manitoba agreed to use previous lists or to prepare entirely new lists, there would be no objection in Ottawa, Col. Biggar said. He would be willing to co-operate in anything the province required, provided the request was unanimous, as provided under the act.

## Wyoming Rancher, New British Earl, Is Ex-Legislator

Sheridan, Wyo., Sept. 22.—I couldn't renounce the title. I am the Earl of Portsmouth, no matter what I say. The title can't be changed hands. This was the answer of Oliver Henry Wallop, the Wyoming rancher who has become Earl of Portsmouth, when asked if he would retain his title or his American citizenship. He succeeded to the British title by the death in England of his brother, John Pellos Wallop, seventh Earl of Portsmouth.

"I intend to live here," he continued. "Yet the title remains mine and can not be taken away. It will succeed to my son." Wallop became an American citizen Nov. 5, 1904. District Court records here show, renouncing allegiance to any foreign Prince or Potentate, "particularly Victoria, Queen of England." He also took oath that he bore no title and had never been of "any degree of nobility."

No formal renunciation of title right is on record. Immigration officials in Denver and Washington are quoted as saying they do not believe the new Earl can legally assume his title in England without renouncing American citizenship. They point also to the existing immigration law requiring an alien applying for citizenship to renounce all hereditary titles. This law, however, was enacted in 1906, after Wallop had become an American citizen.

The new Earl did not appear to regard his rise as extraordinary and said he would merely visit his native England, be invested with the title, and return to his cattle ranch near here.

Portsmouth will have a background of American legislative experience if he sits in the House of Lords, for he served in the Wyoming House of Representatives from 1909 to 1911.

The new Earl, although he still retains his British accent, looks the part of a Western rancher—tall, lean, grey and bronzed. He doesn't look his sixty-three years. He has been an American dairyman and rancher for more than forty years.

During the Fall of 1883 he left his home in England to go to Canada on a hunting expedition. From there he wandered to Wyoming to visit a colony of Englishmen near Sheridan. He liked it and bought a small ranch. He later bought the 3,000-acre ranch at Little Goose Creek, Big Horn, Sheridan County, where he has since raised cattle.

In 1897 he married Miss Marguerite Walker, daughter of the late S. J. Walker of Chicago, and they had two children, Gerard Vernon Wallop, now living in England, who by his father's succession to the earldom gains the title of Lord Lynton, and Oliver H. Wallop, Jr., who is living on his father's ranch. Gerard was an officer in the British Army during the World War.

Wallop's ranch is in the heart of a colony of former British settlers, who retain many English customs, such as tea in the afternoon and polo.

## Vancouver Island Egg-Laying Contest

Year 2-Weekly Report. No. 46, Week Ending Sept. 18, 1925. Conducted by the Dominion Experimental Station, Sidney (Registration)

The following table gives the production of the individual birds for the week under columns numbered 1 to 10. "W" gives the total weekly production and column "T" the total number of eggs for the pen to date. The difference between the weekly total and the records of the individual birds is the result of eggs laid on the floor.

—Knit Underwear, First Floor

### "Vegex" or "Marmite"

"Vegex" is a similar preparation to what is known in the Old Country as "Marmite." We have so many customers who ask us for "Marmite" that we thought it advisable to make this explanation.

"Vegex" is a wonderfully nutritious food, composed of the concentrated extract of selected vegetables, combined in a scientific manner with yeast. It does away with excess of uric acid and is specially suited to those inclined to rheumatism, nervous debility. Mixed with butter it makes delicious sandwiches. Sold in several sizes, **\$4.00, \$2.15, \$1.00** and **55¢**

—Drug Sundries Section

## AT THE THEATRES

## "COAST OF FOLLY" IS GLORIA SWANSON'S GREATEST PICTURE

Twenty years ago, when divorces and motor cars were first beginning to be used—when publicity was notoriety—the great Gathaway scandal began. It seems that Nadine Gathaway, then a young, beautiful and temperamental girl, was aroused by the narrowness and rigidity of her stodgy, middle-aged, millionaire husband to desert him and her baby daughter, Joyce.

The scene shifts. Twenty years later! Joyce Gathaway, lovely and high-spirited daughter of Nadine, has come into the prime of young womanhood with the heritage of her mother's mis-step. Nevertheless, she is the pet and leader of the younger set at Palm Beach, the celebrated "coast of folly."

Nadine becomes involved in a situation with Larry Fay, played by Anthony Jowitt, a handsome, wealthy and socially popular. The scandal-mongers see the two together time and again, and interpret the situation to suit themselves. Larry is a married man, and his wife makes the

Dominion—"Coast of Folly,"  
Coliseum—"The Thirteenth Chair,"  
Playhouse—"The Rosary,"  
Columbia—"Cornered."

affair odious, cleverly arranging matters so the case is blazoned to the world in newspaper headlines.

Nadine reads a cable dispatch of her daughter's predicament in Paris, where she is now the Countess de Taurus. She hastens to New York to be of assistance.

Such is the situation Gloria Swanson, playing the dual role of both mother and daughter, finds herself in her newest Paramount starring picture, "The Coast of Folly," which opened at the Dominion Theatre yesterday.

Allan Dwan, who directed "The Coast of Folly,"

opened at the Dominion Theatre yesterday. Gloria in "Manhandled," "Wages of Virtue," etc., produced the picture from Forrest Halsey's adaptation of the novel by Coningsby Dawson.

"The Coast of Folly" is Gloria Swanson's greatest acting picture. Gloria, as mother and daughter, gives the most finished and convincing performance that has been seen on the screen.

She is sparkling, gay and lovely to look upon—a dainty and gorgeous butterfly blown to the verge of destruction by the harsh winds of scandal.

FAMOUS STAGE PLAY IN FILM FORM AT COLUMBIA THEATRE

Those of us who saw "Cornered," the famous stage play by Dodson Mitchell and Zaida Sears, in which Madge Kennedy starred in a dual role, will be extremely interested in seeing the film version of this play.

## GRIPPING DRAMA AND FEATURE PICTURE AT COLISEUM THIS WEEK

Heavy drama has displaced comedy at the Coliseum this week with "The Thirteenth Chair" on the boards, and "Her Marriage Vow" on the silver screen. Both are with some rapidity the management made the

venture, but it has proved a success. "The Thirteenth Chair" is a wonderful play, the unravelling of a murder mystery through the aid of

spiritualism, mingled with a mother's love, and calls for clever acting. The Coliseum players, however, demonstrated their ability to reproduce a piece which for two years ran without a break in London, and rounds of applause at the close, and the many letters handed in at the box office for similar plays to be presented in the future, are tributes to the success

they have scored. "Vangie Bellby's" emotion-packed production, "The Thirteenth Chair," is a play so unusual and striking that it will, without a doubt, fill the Coliseum for the remainder of the week. The crowd that gathered to see "Her Marriage Vow" the

Warner screen version of the Owen Davis stage play, at the Coliseum Theatre, last night, was all "well pleased with the picture. Long after the final fade-out people were applauding the brilliant acting of

Bayne, who for three long years was away from the stage. Her return to motion pictures in this powerful photoplay was a great

The acting of Monte Blue was a close second to Beverly Bayne's. He portrays her husband, a young business man who has won his way to a position of little importance in the concern by day and night attention

to his work. This causes him to be neglectful to his wife and two young children.

MARTIN HARVEY TO COMMENCE DOMINION TOUR DECEMBER 21

B. E. Lang who represents Sir John Martin-Harvey in Canada announces that arrangements have been completed for the famous English star to open his forthcoming tour of the Dominion in Halifax on December 21, where a week's engagements will be played.

John will open on January 4 with "Toronto to Go" with the tour will extend over twenty weeks, embracing all of the important centres between Halifax and Victoria.

Sir John is making a brief tour of the English provinces, prior to his London engagement, which opens early in October and will continue until it is time to sail for Canada.

While the repertoire for the Canadian tour has not been definitely set, it is almost certain that "The Only Way" will be included as well as one or two other old standbys, in addition to the new novelties offering which are being prepared.

WINDERMERE SCOUTS HAD TRAIL RIDE

Boys Rode 300 Miles to Attend Pow-wow of the Trail Rangers at Wapta

It is not every troop of Boy Scouts that has an opportunity of travelling on horseback nearly 200 miles with a pack train of thirty animals and attending a great Trail Riders pow-wow at the end of it. Sixteen boys of the Windermere troop, who with their scoutmaster, attended this year the second annual pow-wow of the Trail Riders of the Rocky Mountains, held at Wapta, B.C., on August 10.

Here is the scoutmaster's description of the ride as received at the Provincial office here:

"The trip was made possible this year largely through the good offices of Walter J. Nixon, member of that organization, and a well-known guide at that place. The boys started from Invermere on the afternoon of August 4.

"The party numbered eighteen in all, but some did not join until two days later. The first two days the party travelled on the Banff-Windermere road, stopping one night at Fairlands, and another on the banks of the Kootenay River. Then striking on to the trail at Kootenay Crossing they followed up the Kootenay River all the third day, sometimes through burnt-over territory with its new

through spruce belts, shady and cool, sometimes through acres of meadow, with grass growing to the stirrups. The third night camp was made just below a small lake.

"The next morning all awakened to find a young deer, wild-eyed with curiosity, giving the camp the 'once-over' at close quarters. Some trout were caught too, but in time for breakfast. Continuing up the valley the next day, three members of the party made a side trip in the afternoon up to a lake, hidden high in a basin of peaks, and in two hours caught enough speckled trout to feed the whole party for a couple of meals.

These fishermen caught up to the rest of the party in camp on the banks of Moose Creek, tired and hungry, at about half-past eight that night.

"The next morning the party started to climb; all were warned to see that the cinches were tight, and as the trail got steeper and steeper the horses had to be rested frequently. About noon the Windermere Plateau was reached, palisades and majestic peaks to right and left, miles and miles of peaks beyond, and here other parties were met heading for the pow-wow, and all joining.

"Here other parties were met heading for the pow-wow, and all joining. A huge procession of trail riders was formed, heading North towards Mount Goodwin at Lake O'Hara.

"Camp that night was upon the Goodwin Plateau, about 8,000 feet above sea level, facing a cliff rising sheer 4,500 feet above its valley. The beauty and majesty of the surrounding peaks defied description. Adjectives could not describe the scene, and it was felt to be an insult to try and photograph it with an ordinary

Shown in all the wanted shades, including pansy, ivory, cerise, jade, maize, helio, sky, pink and rose. Wednesday morning special, each 29c. —Main Floor

## BUGS APPEARED AS MOVIE ACTORS

Washington, Sept. 22.—Motion pictures with bugs composing the entire cast have been completed by the cinema laboratory of the Department of Agriculture.

These pictures have their heroes, their heroines and their villains. In one film the colossal beetle plays the lead, chasing a gypsy moth, decapitating it and then dragging it to its lair. In other pictures the beetle weevil performs on a cot, while the clothes moth does its antics on a piece of wool and the bedbug demonstrates its liking for human association by crawling on an attendant.

While the acts were being recorded the warble fly developed stage fright and the picture could not be completed until the performer had been reduced to semi-consciousness by chloroform.

Temperament also was in evidence. Rees so objected to being photographed that they chased the cameraman into a cellar, and the beetles insisted upon closeups. Several times the grinding of the camera had to be stopped while the weevils were extricated from the lenses.

## STITCHES PUT IN SMALL BOY'S HEART

Washington, Sept. 22.—Two stitches in the heart of Melvin Jones, aged five, saved his life yesterday after he had fallen on the points of a pair of scissors. A quantity of blood for a transfusion was supplied by his father.

The boy was about to cut paper dolls when he fell down a flight of stairs. Both scissors points pierced his side, one cutting a quarter-inch gash in his heart.

## HEAD-FIX FOR Sick and Nervous Headaches

Headaches and nervousness are caused by the brain being overworked. The only way to get rid of them is to fix the head. The Head-Fix is a simple, safe, and effective remedy for all kinds of headaches and nervousness. It is made of pure, natural ingredients and is guaranteed to give relief in 15 minutes. Price 35c per box.

# CAPITAL SHIPS BEST POLICEMEN OF WORLD LANES

**Capt. E. Altham of London Morning Post Spoke Before Large Audience at Empress Hotel Last Night on Empire Topics.**

Under the auspices of the local branch of the Navy League of Canada, Capt. E. Altham, representative of The London Morning Post, spoke before a large gathering at the Empress Hotel last night on Empire matters from the viewpoint of a naval man.

Capt. Altham, R.N., retired, is a member of the party of British journalists now visiting Canada as guests of E. W. Beatty, K.C., president of the Canadian Pacific Railway.

In spite of the important advances made by science in aviation and along other lines, stated the speaker, a navy was the greatest of protection for an Empire with dominions a world apart. The capital ship was still the best form of protection, and superiority in guns and range meant protection in times of peace as well as safeguards against disaster in times of war.

To the people of an inland territory, continued the speaker, it might not be apparent how much was secured through the maintenance of a naval establishment abreast of the modern days of this era. Nevertheless the Navy meant security for trade routes, and for the opportunities European markets by virtue of the peaceful trade lanes held open by the security of naval backing in case of need.

The League of Nations the speaker likened to a moral force, binding on those who would listen to moral suasion, but inoperative otherwise. Squabbling had been a consistent state in parts of Europe where smaller nations were jealous of boundaries and inopportunities. Naval protection in the case of the British Empire meant the security of that Empire, and there was no possible alternative to naval power to that end, he intimated.

Naval development, emphasized Capt. Altham, should not be taken as an attitude of aggression, but rather as a security for the peace of all nations. With the Anglo-Saxon nations in friendly companionship, the world had an overriding object lesson in the value of peace.

Relative to the views of those who argued for the abolition of navies on the assumption that lack of fighting machines would make fighting impossible, Capt. Altham declared that the argument, under world conditions as they existed to-day, was founded on a mistaken and impractical hypothesis.

"Do not let us put the security of the present in the line of ideals of the future," he appealed. The British navy would never be used to start war, Capt. Altham declared. On the contrary, the British navy had been used time and again to prevent war, instancing the Turkish and Egyptian disputes and the more recent war between China and Japan.

The British Navy was the real, the ever-present, ever-powerful League of Nations of the British Empire, the speaker asserted, and with the continued friendship of the United States, the combination of the two great English-speaking nations assured the peace of the world.

In urging the importance of educating the people of the British dominions in the interests of the preservation of the British Navy, Capt. Altham said:

"You people on this Pacific Coast of Canada are living in the most defenceless region of the Empire. In case of war involving the Empire your ports are open to enemy attack, and in case of war between your powers you cannot enforce a strong position of neutrality."

The speaker was introduced by Major W. H. Langley, of the Victoria branch of the Navy League of Canada.

The boys' naval brigade band played selections preliminary to the address.

**Fish Gourmands  
Fill Sheephead**

New York, Sept. 22.—To me one of the most interesting spots where the faded glories of a by-gone day still are in evidence is Sheephead Bay. Once all the great sports of the land gathered there to watch the horses run. They came, too, to see the first auto races in the land.

The rambling frame hotels that once were bright with lights and resources and with gayety were weather-beaten, ramshackle affairs crowded into the background by newer buildings. Only two of them still make a pretense of being hotels.

The bay front, however, something of the spirit of the halcyon days still persists. Here the gourmands come by night to fill the restaurants and oyster bars which line the water side of the street.

So great is the crowd in several of these restaurants that the patron in line awaiting a table in a crudely built little shack must swarm about the counters eating clams, oysters and salt-water mussels off the shell.

The curb is lined with auto bringing the hungry from afar. Fathers carry plates of cherry-stone clams to the machines and ravenously kiddies stretch out to receive them, like little robins greeting a foraging parent.

It is not an uncommon sight to see a woman in splendid raiment standing on the walk lending a soft-shell crab limb from limbo, digging with dainty fingers into its deeper recesses and then tilting back her head, while the prize aloft before devouring it.

And here a baby chewing vigorously upon the succulent claw of a lobster. There a sleek cat so surfeited with food that it no longer will regard a fish with more than a look of disdain.

One fresh fish are to be had anywhere, it is at Sheephead Bay. It is from docks that adjoin the restaurants that the fresh fish are sold. Many who go on these trips are in pursuit of sport only. They know not what to do with a fish after they catch it. And so they give or sell their fish direct from the water to the Sheephead Bay restaurants.

The tug Olive M. is at the Victoria Machinery Depot ways for a new crank shaft and engine room repairs. The Otter will be completed and let down this week after tail shaft inspection.

## FERRIES CARRY MAY IN TRANSIT

**One Ferry System Alone Brought More Than City's Population.**

Reverting on Monday last to its winter schedule the Puget Sound Navigation Company have now compiled the full figures for their summer season in the Victoria-Port Angeles and the Sidney-Anacortes runs.

Up to September 20 the two ferry routes combined to carry 49,352 people through Victoria and its environs, in 11,351 cars. The Victoria-Port Angeles route carried 5,534 cars and 30,369 people, while the Sidney-Anacortes ferries took 5,817 cars and 19,055 people.

The Sidney-Anacortes run is still maintained with a round trip daily between the two points.

**Fishermen Get  
Two-cent Raise on  
Salmon Catch**

New Westminster, Sept. 22.—Announcement was made by canners on the Fraser River Monday that the price for pink salmon had been advanced to the fishermen from five to seven cents per fish.

This action was taken following a largely-attended meeting of Fraser River fishermen Saturday afternoon, protesting against the price. For cohoes six cents per pound will be asked of the canners.

**GERMAN BUSINESS  
COMPETITION NOW  
FEEL OVERSEAS**

Washington, Sept. 22.—Increasing German competition in the export trade field is beginning to make Bureau of Foreign and Domestic Commerce officials look rather thoughtful. It is developing pretty fast and experts forecast lots more of it ahead.

As the index organ of the New York Trust Company, says: "German industries have secured splendid new equipment as a result of building up during the decline and fall of the mark."

They are now, almost without exception, equipped with the latest machinery, in a position to take advantage of the latest and most improved processes, and are in all respects probably the most modern in the world; and German rivalry will be intense."

The commerce bureau looks for German activity particularly in the Orient and Latin America. That post-war Germany will be financially able to extend the extremely low credits of ante-bellum days is regarded as doubtful, which may handicap her somewhat.

Still, her production costs are low, so that she can make favorable prices even if she cannot give her customers quite so much time in which to pay them as formerly.

She excels also in adapting her goods to her trade's requirements. Instead of trying to educate her markets into a liking for what her own people happen to prefer, the Anglo-Saxon and especially the American system.

**AFTER CHINA TRADE**  
In China, Germany, potentially is in a stronger position and far more powerful than before the war. The ability of all foreign nationalities, the best liked there. While her business methods were good, politically her pre-war attitude was one of arrogance and it cost her friends.

Beaten, she has grown polite. Except Russia, whose commerce rivalry she has no need to fear, she, of all the world powers, is without territorial possessions or extraterritorial rights at the expense of the Chinese. Both were included among her losses, which, of course, didn't like at the time, but is discovering now to have been blessings in disguise.

German merchants not only cater to Chinese wants, but adopt Chinese ways. For one thing, there's the matter of the language. English-speaking traders insist on transacting business in their own tongue. "Pidgin" is not sure, but "pidgin English" is not "pidgin Chinese."

But Dr. Mohr, the German economist, in a book he has just published for the benefit of his country's exporters, warns: "All nationalistic notions of making German a common language in China should be discarded. It being far wiser for Germans to master Chinese, with a view to making this language the trade medium between the two nations." Dr. Mohr wants German newspapers in China, too, printed both in German and Chinese.

Another thing—German traders make partners of the Chinese. The Oriental psychology is hard for the Occident to understand, making it difficult for the latter, even after much experience, to deal directly with the rank and file of native customers.

The English, Americans, and most other foreigners in the Chinese trade accordingly hire a native "comprador," kind of "contact man," half a credit expert, half a sales manager. He may hold his job—a mighty important one—indeed, perhaps at good pay, for a Chinese, but almost never like to become anything but a hireling.

The German makes him a partner—part of the business and part of the profits, if any are made. The "comprador" takes precious good care to scoop in all there are to be had. The American or the Briton's doesn't care so much.

In Latin America the Germans have the advantage of several trade

## PRINCE RUPERT TO HAVE FIRST GRAIN NOVEMBER

Prince Rupert, Sept. 22.—The 1,500,000-bushel Government terminal grain elevator being built here will be completed by November 11, when a test shipment of ten carloads of grain will be made through it.

**FRUIT SHIPMENT  
WILL BE LOADED  
BY MS. UNTELOK**

Holland-American Liner to Carry American Peas to United Kingdom

Portland, Ore., Sept. 22.—Preparations for the exportation of 16,000 boxes of peas to be loaded this week for the United Kingdom aboard the Holland-American line motorship Dintevik provide for the fruit moving from the interior in ice cars. The boxes will be transferred direct from the cars to the vessel. It is the first consignment of consequence to the British Isles for two years.

There will be 8,837 boxes of fresh asparagus in the refrigerator compartments of the motorship. 8,000 cases of canned goods to be taken will consist mostly of peas.

**Steamship Badly  
Battered by Gale**

Anchored Off Cape St. Quentin With Bunkers Empty

San Diego, Cal., Sept. 22 (Associated Press).—Battered by heavy gales that have been raging for a week along the Western Mexican coast, the Garland Line steamship George A. Miquelon, Philadelphia to San Francisco, is reported anchored off Cape San Quentin, 165 miles south of San Diego. Her fuel supply is exhausted.

Captain Clark said in a radio message that the ship is in no danger. The tug Sea Lion on her way to take the ship and her crew had kept close guard until last night.

**Master of Whisky  
Ship Says She Was  
Hi-jacked at Sea**

Halifax, Sept. 22.—Five thousand cases of whisky, 150 barrels of malt and numerous cases of other beverages were hijacked on the steamer Jean Louis, owned and registered at St. Pierre, Miqelon, Philippines. Pirates, twenty-two miles southeast of Sankey Head on September 10, according to statements by her captain, boarded the ship and looted it.

The Jean Louis, a 2,500-ton steamer, was transferred to the Charlemagne No. 2 of New York, said the Jean Louis master, who added that he and his crew had kept close guard until last night.

**TO HAVE FIRST  
GRAIN NOVEMBER**

## JAPANESE TRADE SHOWS HANDSOME LEAD IN EXPORTS

**Foreign Trade Making For  
Stability of Money Market**

A survey of the Japanese financial and mercantile situation for the month of August, with particular reference to exports and the commodity market, received by the Japanese consulate at Vancouver, reports as follows:

**FOREIGN TRADE**  
Japan's foreign trade for the month of August continues to yield a favorable balance, with the aggregated export excess of \$8,000,000 yen since July. August exports amounted to \$28,000,000 yen, and imports \$19,000,000 yen—this making export excess \$7,000,000 yen; exceeding the imports by \$2,000,000 yen.

Foreign exchange is likely on the way to stability following the favorable developments in the foreign trade. Money market continues easy, more or less, with an effect of the foreign loan imported from Japan, exceeding the limit by 1,000,000 yen. Loans amounted to \$27,000,000 yen and the capital paid up during the same month, \$7,000,000 yen. The stock and bond markets unchanged. Total bills clearance during August aggregated \$7,075,000,000 yen.

**COMMODITIES**  
Continued export activity is seen in raw silk, cotton yarn, and cotton goods markets. Rice crop is estimated favorable and the price is anticipated to fall. The others remain quiet. Raw silk export for August, 48,600 hys. The total output of cotton yarn was 194,400 kori and export 21,000 kori. Cotton goods exports, \$9,000,000 yards. The price index number for August, by Bank of Japan, 184.75. Commodity stocks were valued at \$10,000,000 yen at the end of the month.

**MARINE NOTES**  
Outbound for the Orient in the service of the Admiral Oriental line, the President McKinley, Capt. Alvin O. Lueite, will call here at 8 p.m. on Thursday and at 5 p.m. on Friday. The ship will have 100 passengers and a light discharge for Victoria, including sixty bags of mail.

Some 5,600 bales of silk for the Chicago, Milwaukee and St. Paul road are reported to be on board the ship. The ship will have 100 passengers and a light discharge for Victoria, including sixty bags of mail.

## Hockey World Is Now Fraught With Rumors

Fans Being Treated to Unusual Number of Rumors of Sales, Deals and Changes But Time Will Tell What Truth is in All of Them; Regina Business Men Reported to Have Been After Saskatoon; Deal for Simpson Has Gone Through; Calgary Sitting Pretty

Rumors! That's what the hockey fans will have to listen to for awhile now. The two months prior to the opening of the leagues are always fraught with rumors of sales, trades and changes. At present the fans throughout Canada are getting more than their usual share of rumors, due, in the first place, to the fact that New York has got to get a hockey team before the middle of next month and in the second place to the uncertainty of the Hamilton club's intentions regarding its suspended players.

The New York interests find the time getting very close when they must place their cards on the table and show the directors of the National Hockey League just what they have got. Tommy Gorman, who is spokesman for the New York interests, has been filling the papers with his troubles, efforts and successes.

### MCKENZIE CALLS GORMAN

Yesterday Gorman sent out word that he expected to land the Edmonton Hockey Club hotus-bolus for New York. This was followed by a denial from Kenny McKenzie, manager of the Eskimos, that he was not going East. McKenzie has been anxious to have his franchise in Edmonton taken over by other parties in the Alberta, that he has he has never offered it to outside interests. It is doubtful that the Western Hockey League would allow Edmonton to leave the circuit owing to the fact that, with Calgary, it forms a strategic point with the Coast cities interested in the league. The league is believed to be more agreeable to allow Saskatoon to pass out than Edmonton. With Regina gone Saskatoon is far off. If Edmonton, Calgary, Victoria, Vancouver and Portland were left, a better schedule could be worked and the transportation problem would be made easier.

The Saskatoon franchise is on the market as indicated by the following report from Regina: "Local business men who undertook to buy over the Regina Capitals, the night before the Western Hockey meeting in Calgary, have finally decided not to take over the Saskatoon club and franchise, which had been available for \$20,000, exactly twice the sum for which the Regina Capitals were sold to Portland."

"It is understood that Saskatoon is certain to dispose of the team to Eastern interests. If New York fails to buy the club, then Hamilton is believed to be the likely purchaser. At all events, it is unlikely the Capitals will play on the Prairie this winter."

"Highly imaginative" is the way a local hockey man classes the report that Joe Simpson, has been purchased by New York. It appears that each club in the Western Hockey League has an opportunity to take out waivers before the noted corker artist would be permitted to leave the West.

That may make good reading for the Regina fans, but it will not weigh very heavily in the mind of the hockey world. Wes Champ, manager of the Regina club, informed the W.C.H.L. meeting last week that he had tried every possible source to leave the Capitals in Regina. No business men were willing to come forward and assume his burden. It hardly seems likely that the business men who refused to take over the club would be of Regina for \$20,000 would want to pay double the amount for Saskatoon.

Regina, Sept. 22.—Ken Doraty, the speedy right winger and defence man of the Pats hockey team, junior champion, Pete Muldoon, manager of the Rossbuds, who has been here for several days, has returned to the coast with the signed contracts of Traub, McCusker, Shore, Dutowski, McVeigh, Dick Irvin and Townsend, the former Brandon amateur.

The team reports on November 10. Current reports here are that Shore and Gagne of the former Regina team are to be traded for Trapp and McCormick of the Eskimos.

### SIMPSON IS GOING

Edmonton, Sept. 22.—There is no question about the hockey deal which sends Joe Simpson, Edmonton hockey star, to New York. The purchase of Simpson was announced by Tommy Gorman and confirmed by Manager McKenzie of the Edmonton club. It is believed that all clubs in the Western Hockey League are aware of the sale of Simpson at the annual meeting held at Calgary last week.

Saskatoon, Sept. 22.—According to information given out by prominent local sportsmen, negotiations are under way with Regina professional hockey magnates to take over the franchise and players of the Saskatoon hockey club from its present three owners who have offered to sell out for \$20,000. The plan is to form a joint company, turning the present Saskatoon club into an all-Saskatchewan unit and playing several games in Regina this coming season in the Western Hockey League schedule and eight in Saskatoon.

Regina moguls are ready with \$20,000 in cash to put into the proposition, local sportsmen state.

Calgary, Sept. 22.—Believing that the addition of Art Duncan, defence

## Picking Winner Of World's Series Is Now Ruling Hobby

Huggins of Yanks Favors Washington; President Heydler Picks Pittsburgh

Pirates Score Seventh Consecutive Win; Athletics Pounds Out Victory

New York, Sept. 22.—Pittsburgh's pennant march in the National League race continues unimpeded. Bolstered by seven consecutive wins, the Pirates need only three more of their remaining nine games to nail the flag to their mast. Washington needs five of its scheduled twelve games to triumph in the American League. The Pirates posted out a 9-to-7 victory over Phillies yesterday.

Brooklyn has been losing as consistently as the Pirates have been winning. Brooklyn dropped its eighth straight to the Cubs, 3 to 2, which places the Robins practically out of reach to capture the First Division this season. Bob McGraw, pitcher, purchased from Minneapolis for \$25,000, has joined Brooklyn.

Five pitchers failed to stop the Braves and Cincinnati lost 7 to 6. Rain prevented the Giants and Cardinals from playing in St. Louis.

The Athletics turned in a 10-7 victory in their last meeting with Detroit this year. The Mackmen have won fourteen out of twenty-two games with the Tigers in their series.

### PROPHESIES

Washington and the other American League clubs were not scheduled.

Miller Huggins, manager of the Yankees, favors Washington to beat the Pirates in the world series. He believes the Senators' pitching staff and veteran players give them the edge.

Victory for Pittsburgh is predicted by John A. Heydler, National League president. "Pittsburgh will win the series probably the best team ever entered by the National League," he said.

### NATIONAL LEAGUE

Cincinnati, Sept. 22.—Cincinnati used five pitchers against Boston in yesterday's game, but the visitors won, 7 to 6. Walker hit a homer in the first inning with a man on. Holke and Hargrave collided in going after Burrows' foul in the seventh. Both were knocked out temporarily. Holke continued to play, but Hargrave retired from the game.

Chicago, Sept. 22.—Chicago bunched hits in the first inning, and did the trick again. These nonpareils of the American baseball world were the chief factors in giving Fraser Cafe their second straight victory over Fernie for possession of the Gale Cup at Athletic Park yesterday afternoon.

Chicago, Sept. 22.—Eddie Olson and Cy Seymour turned the trick again. These nonpareils of the American baseball world were the chief factors in giving Fraser Cafe their second straight victory over Fernie for possession of the Gale Cup at Athletic Park yesterday afternoon.

Chicago, Sept. 22.—Eddie Olson and Cy Seymour turned the trick again. These nonpareils of the American baseball world were the chief factors in giving Fraser Cafe their second straight victory over Fernie for possession of the Gale Cup at Athletic Park yesterday afternoon.

## MUCH BUSINESS AWAITS UNION LOCKLEY SAYS

President Outlines Work of Past Year; Suggests Many Matters

The executive committee and special committees of the Union of British Columbia Municipalities successfully carried out all tasks allotted to them at last year's convention. The Legislature and the Educational Survey Commission were greatly impressed by data on school costs collected. President Alexander Lockley informed the delegates to the Union this morning, in convention at the City Hall council chamber. President Lockley's address was as follows:

"In presenting my report, I may say that all work decided upon at our last convention, to be carried out by executive or special committees, has been accomplished.

"The most important question dealt with at the last convention was the cost of education, and the burden it places upon municipalities. "Special committees in all sections of the Province collected data on this question. The work was consolidated, and a comprehensive pamphlet, 'School Finance,' covering the taxation of Real Property and the Need for Reform, was prepared. A copy was placed on the desk of every member of the Provincial Legislature. It was presented to the Premier and members of the Government. The work in compiling the pamphlet can be realized by those who have read the same.

"Special committees met the 'Special Educational Survey Commission' on several occasions, and placed before them the case of the municipalities. The members of the commission, the Premier, and members of the Government gave the U. B. C. M. high praise for the data compiled and the presentation of the case.

"It has been impossible to obtain printed copies of the report of the 'Special Educational Survey Commission' to the Government. They would have been of great value to the municipalities, which are dealing with educational problems, and the Union could have been informed as to how far the commissioners have accepted or rejected our proposals. I would therefore suggest that the new executive committee obtain and analyze as early as possible, a copy of the commissioners' report. If it contains suggestions that are not in the interests of the municipalities, representations should be made to the Government before amendments are made to existing legislation.

"The relations of this Union and the B. C. Hospital Association seem to be far more satisfactory than they have ever been before. Suggestions were made, at our last convention at Penticton, from which to my mind a solution can be found for all the difficulties that have existed in the past. I sincerely urge this matter for careful consideration. I feel that there will be no difficulty in coming to an agreement. I am looking forward this year to the two bodies combining and seeking legislation acceptable to both.

"Last year the Attorney-General asked the Union to consider alterations in the administration of police forces. It was a very important matter, and considered by the executive a question only to be dealt with in open convention. I presume the matter will come before you through individual resolution; if not, I hope the resolution committee will consider the matter, even if the discussion should apply only to the very small municipalities. To my mind, in many cases too much overlapping takes place.

"The important question of assessment will again come before you and will no doubt be as difficult to solve as before, chiefly on account of the abnormal times through which we are and have been passing. In many cases the difficulty of the assessment is, under present conditions, to find the actual value, and the fear of municipal authorities of such reductions taking place that will interfere with the financing of municipal administration. Added to these difficulties is the fact that a large proportion of the municipal debt of this Province was incurred at a time when land was assessed at boom prices. Personally, I believe a lot of the difficulty would be overcome if not more than a set percentage could be reduced in any one year, and if that percentage had been reduced by the assessor or Court of Revision, no appeal could be taken. Nevertheless, I hope some solution will be found for this difficult question this year.

**CITY MANAGER**

"The question of endorsing the application for legislation giving to municipalities who desire it, the privilege to appoint a manager, will, I believe, come before you. I hope every phase of this question will receive your careful and serious consideration.

**ALWAYS INTERESTED**

"As you are aware, do not for the time being hold any public office, but during the years I held office, I have always been an ardent supporter of this Union. If the municipalities are to receive the sympathetic hearing of the Government of

the day, it will only be by uniting together. Although for the time being I sever official connection with the Union, I shall always be at your side as a great interest in your work in the future as I have done in the past. It would be impossible to find a more conscientious and more than I have found in the delegates to the conventions of this Union. It has, at all times, been a honor and a pleasure to work with them.

"Before concluding I would like to say that your representatives have, at all times, received every assistance and courtesy during the time the House was in session, from the chairman of the municipal committee, A. Patterson, of Delta, and the secretary of the committee, Mr. Bryan of North Vancouver. Their unfailing kindness and willingness to assist were of great value to this Union.

"I wish to bring to your notice the great work accomplished by R. F. Biand, clerk to the Municipality of Oak Bay. Mr. Biand worked many weeks in compiling most of the very important data that was contained in the pamphlet on school finance. I sincerely hope that other members of the special committees on the educational question will also bring this matter before the convention, as work of this magnitude cannot be ignored.

"I also wish to thank Mr. Wells Gray, your esteemed secretary, for the manner in which he has assisted and worked with me during my term of office. Mr. Gray is a very valuable officer of this Union.

"I sincerely hope that your present deliberations will be both pleasant and beneficial, and that you will take away with you very happy recollections of your visit to the City of Victoria."

## HON. DR. SUTHERLAND OUTLINES HIGHWAY PROBLEMS TO LEAGUE

Minister of Public Works Points to Relation Between Highways and Taxation

Addressing the Good Roads League Convention yesterday at the Grand Hotel, Hon. Dr. Sutherland, Minister of Public Works, declared that recent tours of the Province had shown him that the lack of highway construction being carried on, in view of the very limited funds available to the Public Works Department, was a serious problem.

"It is to be hoped that your resolutions addressed to my department in connection with highway requests will be taken into consideration, and that the interests of the municipalities, represented by greatly increased highway appropriations, and that involves greater taxation or new loans," he said.

The Minister declared that use of light trucks in districts served by gravel roads has been a cause of much expense there now being on the Province over 17,000 miles of roads together with 8,000 miles of trails.

The present year has seen expenditure of \$52,318 on 315 miles of classified highways, within the limits of 22 cities and municipalities, chiefly on maintenance operations.

Continuing a policy of closing gaps in trunk roads paving the Provincial Government has in hand many important works, chief being operations on the Fraser Canyon Highway, where progress is so good the minister foresees completion of the two-lane road prior to next summer.

"Those who have examined this work give it high praise," he said, declaring that, save at a few points of limitation by railway or river, a width of two lanes of travel is being provided along the canyon of the Fraser River, well protected by rock walls or heavy timber guard.

**CUT OTHER WORK**

"Naturally an estimated outlay of \$2,000,000 on the Fraser Canyon Highway has seriously reduced the funds available for other highway work," he said.

Dr. Sutherland gave an exhaustive explanation of highway expansion in interior areas, and also with the ravaging of the Island Highway, which has cost less than 10 cents per square yard for the eleven miles surfaced.

**TO ASSUAGE PERIL**

The Minister of Public Works declared war against highway destroying trucks of inordinate capacity, and announced the intention of the Government to protect highway users from the growing peril of juggernaut passenger buses.

"People have assured me of the fears caused Malahat travelers by some of these enormous buses, machines taking up almost the entire width of the highway at certain corners.

"Something should be done to protect the ordinary traveler, and the Government will present to the next session of the House legislation which will effectively curb this tendency towards undue weight and size of trucks and buses.

The Province has this year received from the gasoline tax nearly \$50,000 more than last year, Dr. Sutherland reported, while the tourist influx from other provinces and the various States aggregated 208,000 cars, a remarkable growth when compared with the record of 70,000 cars attained only two years ago, he considered.

**London Hospital Asks Aid to Extend On 60th Anniversary**

London, Sept. 22.—New Zealand is the latest part of the Empire to help the effort that is being made by means of ten thousand tea parties to raise money for the Extension of the Elizabeth Garrett Anderson Hospital in Euston Road, London, N.W.1. The hospital was the first in the Empire to be run by women for women, and demands on its accommodation have steadily grown during the last fifty-nine years. To mark its sixtieth year it asks for a new lease of life.

Little gift envelopes for hostesses and leaflets about the hospital's need can be had from the Appeal Secretary, 144 Euston Road. The hospital extension is to be a memorial to the ninety-eight nurses from overseas who died in the war.

Passions are likened best to floods and streams. The shallow murmur, but the deep are dumb.—Raleigh.

## J. J. JOHNSTON IS RE-ELECTED CHIEF OF ROADS LEAGUE

League Urges Extension of Island Highway Paving

Advocates Ninety-day Customs Permit For Touring Motorists

President J. J. Johnston was unanimously re-elected to office last night by the Good Roads League, in session at the Empress Hotel with many guests in attendance of ninety-seven delegates.

The officers for the year will be: Honorary presidents, His Honor Lieutenant-Governor W. C. Nichol, and R. H. Gale of Vancouver; president, J. J. Johnston, New Westminster; first vice-president, Mayor J. C. Pendray, second vice-president, Mayor R. C. Gaylor, Port Coquitlam; third vice-president, Ald. G. W. Vance, North Vancouver; fourth vice-president, Reeve J. W. Poppy, Langley; honorary secretary, H. Frank Bird, Vancouver; honorary treasurer, R. A. Hutchinson, Vancouver.

**DIRECTORS**

The following were elected to the directorate: A. Lockley, Esquimalt; Ald. F. Woodside, Vancouver; J. R. Reid, Vancouver; Reeve T. Reid, Surrey; Reeve W. J. Kirkpatrick, Penticton; Ald. E. H. Bridgman, North Vancouver; Mayor C. Hawkins, Ensenada; Ald. George Turner, Nelson; Reeve McLean, Burnaby; Reeve W. Wren, Mission; Reeve James Sloan, Tofino; Reeve Paton, Point Grey; Reeve W. J. Buckingham, South Vancouver; Mayor W. Duncan, Courtenay; Reeve J. Tildon, Richmond; Mayor Love, Grand Forks; and Reeve McDonald.

**BIG PROGRAMME**

By resolutions passed yesterday the league decided to urge upon the Government the importance of bringing to completion the following projects:

1. Hard-surfacing the Island Highway by operations starting from Courtenay and Victoria simultaneously, day to day to handle concentrates from Copper Mountain, which are being shipped by the Canada Copper Company and to handle accumulated concentrates and ore from the Consolidated Rossland properties. In due course the copper refinery will start up, to refine the crude product of the smelting.
2. Completion of a West Coast trunk road between Victoria and Tofino via Kennedy Lake and Long Beach.
3. Setting aside of the territory neighboring the Fraser Canyon as a national park.
4. Securing of legislation introducing uniform regulations throughout the province governing the dimensions and weights of loads and the size of tires carried by motor vehicles on the various classes of roads.
5. Securing of amendments of the Federal Customs Act extending the present thirty-day tourist permit to one of ninety days, thus allowing the tourist to remain in the country for the latter period of time without the necessity of posting bonds.
6. Completion of the Limekiln Road from the West Saanich Road to Butchart's Gardens as a secondary highway.
7. Preservation intact of timber within one-quarter of a mile of existing scenic highways.
8. Paving by the Provincial Government of that part of the Pacific Highway which constitutes half of 12th Street, New Westminster, and which has not yet been paved by that city.
9. Classification of the Dewdney Trunk Road from Vancouver to

Agassiz, via Port Moody, as a main trunk highway.  
10. Completion of a highway from the vicinity of Central Park, Vancouver, to the University site at Point Grey.  
11. Classification of the connecting link between the Second Narrows bridge and the City of North Vancouver as a secondary highway.  
12. Classification of Shore Road and Beach Drive-Deck Road as a secondary highway.  
13. Building of a secondary route from New Westminster to Vancouver.

## Invention is to Find Mine Areas

Sydney, Australia, Sept. 22.—An invention which it is claimed will reveal large fields of mineral ore is to be introduced to Australian mining men by Karl Burgraff, a German business man, who has arrived in this country (where he was interned during the war) to exploit the system.

It depends essentially on charging large fields with electricity, which, with the aid of a suitable apparatus, indicates the presence or absence of minerals. The method has been used successfully in Europe. It obviates loss by boring in useless areas, and tells where the richest veins are. The principle involved is that of the resistance of mineral layers to electric waves in a field artificially charged. Deposits as yet investigated in Europe include oil, coal, ore and petroleum. Mr. Burgraff believes immense quantities of ore exist, unsuspected by prospectors, in Australia and in the United States are already ready in Germany learning to use it.

The invention is not for sale, but according to Burgraff, several mining men of the United States are already in Germany learning to use it.

## Trail Smelter Blows In Copper Furnace

Trail, B.C., Sept. 22.—The Consolidated Mining and Smelting Company of Canada, blow in a copper furnace to-day to handle concentrates from Copper Mountain, which are being shipped by the Canada Copper Company and to handle accumulated concentrates and ore from the Consolidated Rossland properties. In due course the copper refinery will start up, to refine the crude product of the smelting.

He Doesn't want to hurt you

The people who are afraid of the dentist are the people who do not consult him until they have trouble. Your dentist is more interested in getting your teeth than he is in hurting you. Go to him regularly for examination and you will escape a lot of pain and trouble.

## 4 out of 5 is grim pyorrhea's count

DENTAL STATISTICS tell this grim story: four people out of every five are destined, through neglect, to contract pyorrhea after they pass the age of forty. Thousands younger also suffer.

Pyorrhea is the dread disease of the gums which is responsible often for loss of teeth, rheumatism, neuritis and other dangerous disorders.

It starts with tender bleeding gums. Pockets form below the teeth and poisons spread relentlessly through the body. If you have pyorrhea or any of its symptoms see your dentist at once and start brushing your teeth with Forhan's for the Gums.

To safeguard yourself against pyorrhea make Forhan's your regular dentifrice. It is the formula of R. J. Forhan, D. D. S., and contains his pyorrhea liquid which has been used by dentists the last 15 years in the treatment of pyorrhea. If used regularly and used in time it will prevent pyorrhea or check its course. Don't give this insidious disease a chance to start. Start using Forhan's this very day. All druggists, 35c and 60c in tubes.

Formula of R. J. Forhan, D. D. S.
